

## III Semester B.C.A. Degree Examination, November/December 2017 (CBCS) (F+R)

(2015 - 16 & Onwards) enoite up evil yms rewenA

BCA 303: OBJECT ORIENTED PROGRAMMING USING C++

Time: 3 Hours elgmaxe ritiw pribsobeyo notbout to eau entre Max. Marks: 70

Instruction : Answer all the Sections.

## SECTION - A dilw notion when the large a section - A

Demonstrate the usage of classes and objects with any example.

## Answer any ten questions:

listeb of anotomization to secure editores (10×2=20)

- 1. Explain manipulators in C++.
- 2. Describe static data members.
- 3. What is function prototype?
- 4. What are access specifiers?
- 5. Explain scope resolution operator in C++.
- 6. What is destructor?
- 7. List out the operators which cannot be overloaded.
- 8. Define virtual base class.
- 9. What is the role of this pointer?
- 10. What is an exception in C++?
- 11. What are input and output streams?
- 12. Differentiate between seekg () and seekp() functions.

## Ill Semester B.C.A. Degree Examination, November/December 2017 B-NOITOBS

Ans	SWE	er any five questions. (5	×10=50)
13.	a)	Explain basic concepts of OOPs in detail.	5
	b)	Illustrate the use of function overloading with example.	190075
14.	a)	What are inline functions? Explain.	5
	b)	Demonstrate the usage of classes and objects with any example.	5
15.	a)	Explain friend function with example.	5
	b)	Describe types of constructors in detail.	wanA 5
16.	a)	Demonstrate the usage of unary operator overloading with an example.	5
	b)	Explain data conversions in detail.	5
17.	Ex	xplain various types of inheritances with suitable examples.	10
18.	a)	Write about virtual functions in C++ with example.	5
	b)	Explain function templates in C++ with suitable examples.	5
19.	a)	Demonstrate the use of try and catch blocks in C++.	5
	b)	Explain the unformatted I/O operations of streams in C++.	5
20.	a)	Explain file pointers and file modes.	5
	b)	Write a program to prepare shopping lists using arrays of objects.	8. De

What are input and output streams?

10. What is an exception in C++?\_

Differentiate between seekg () and seekp() functions.
