- 10) To provide coaching for competitive examinations.*
- 11) To conduct motivational talks.*
- 12) To make the students industry ready.*

Career guidance and placement cell was established in the college in 2012 with the objective of providing comprehensive training to the students to face the corporate world and develop excellent professional career.

Day to day activities of the cell are being looked after by the Placement Officer and is responsible for effective functioning of the cell. He is assisted by the Career Guidance and Placement Advisory Committee headed by the Principal. The cell is provided with the necessary infrastructure and facilities for effective and efficient functioning.

## **Message from Training & Placement Officer**

Being Head of the Department, I establish vital link between students and prospective employers to facilitate the training and placement of students as they begin their career after graduation. In this age of liberalization, privatization, and globalization, there is an ever increasing industry requirement for professionals who have high employability index and required competencies with an inquisitive mind set for innovations.

Sindhi College students have proven capabilities as evidenced by increasing number of placements taking place in MNC's like HP, E & Y, Decathlon, Valenta, Accenture, HCL, Wipro ICICI and many more.

We have a separate Career Guidance and Placement Cell which arranges campus Interviews and helps students to develop leadership, interview, and communication skills. We are continuously preparing and training our students for cracking aptitude tests. Partnerships with great companies provide enriching experience to our students, at the same time strengthening commitment for great Industry-Institute Interaction. We also organize industrial visits for students, training seminars, conferences, and expert lectures to prepare them for opportunities that await them.

The present batch of our young budding graduates is working hard to be a part of the large dynamic industry. The intensive training and encouraging learning environment of our institute has made them proficient in the basic as well as specialized fields of relevance. The various value-added courses being imparted at the Institute have given adequate exposure to our students in building their skills. Apart from core technical skills, our students are competent in soft skills too.

With great pleasure and honour, we invite industries and corporate houses on our campus.

I also appeal to our students to take advantage of all Placement activities.

Wishing students all the best.

***Mr. Tameem Ahmed***  
***Placement Officer***
