SINDHI COLLEGE

19th Annual Report

2020-21

The college was established in 2002. Since its inception, the college has maintained the highest academic standards and pioneered some of the best practices in higher education. In tune with its motto, “Service to Human Kind”, the college continues to keep up its commitment to humanity and uphold an unflinching adherence to human values.

Sindhi College rose itself up against the unparalleled challenges of a global pandemic, requiring a quick and significant transition in program and service delivery. Strengthened by our welcoming, passionate and resilience characteristics, and a commitment to the strategic directions of the plan – an experiential focus, creative and innovative thinking, and a collaborative and resourceful foundation – we met the challenges of extraordinary times while positioning our college to prosper and lead in the recovery period that lies ahead by adapting to the ‘New Normal’. Our institution is one of the first few colleges in the city to switchover to the online teaching-learning process during the lockdown and pandemic period. We are very proud that there was a wide coverage in press about online teaching and interview with the Principal, Dr.B.S.Srikanta. The press coverage was noted by Dr.Ramesh Pokriyal the then Union Minister for HRD and appreciated our efforts in his tweet. It’s a matter of privilege to present the 19th Annual Report of the College for the academic year 2020-2021 highlighting the key achievements over the past year, which marked an extraordinary period in our history.

Resource person mentioned that the new normal is comparatively different from what it was a few years ago. Women in the past had to undergo many travails when compared to the present day. These restrictions often made them feel inferior. But it was framed as a safety measure, which in many cases wasn't. Taking into consideration that they weren't allowed to have education or any other activity that was known to be

men's stuff was a barrier. In recent days, women have their own dreams, and education is a spear of power. Women have demonstrated excellence and exceptional growth in various fields. Women empowerment will help them shine in the upcoming years. The odds of women getting harassed in a workplace or an educational institution is pretty high, but we should give them the strength to overcome that and face it with a broader mind. Women should no longer be looked down on if they had a bad past. As a child one might have a different dream, as a girl it might change and as a woman it may be far different from what it was. The only thing that is constant is change. Women are still harassed with age old customs which are preached and practiced differently. However, in the recent past women have realised their potential and we find many women who have stood against the age old practices of discrimination. 167 participants which included professors, students and academicians from universities and colleges across the country attended the webinar.
