INSTRUCTIONS TO PAPER SETTERS FOR THE PREPARATION OF SCHEMES AND SOLUTIONS

1. The objective of preparation of scheme and solution is to ensure a uniform valuation among the evaluators.
2. The solution should indicate the expected important points/ steps / graphs / drawings / circuits / figures / calculations/ tables and final numerical answers along with the marks allocation for each of these.
3. Please bear in mind that the students have to complete the answers for question papers within **3hrs and within 36 pages of A4 size** .
4. The allocation of marks shall be an indicator, for the student, for the extent of answers expected.
5. Marks could be allocated for step-wise development of concepts / answers / figures / circuits / graph / exactness / accuracy in numerical values / units / calculations.
6. The figures / drawings and views / circuit diagrams that are part of answers shall also be given in solution to ensure that the same is being uniformly evaluated by all the examiners.
7. Answers shall not be in the form of references / citations where authors name / title of the book / chapter numbers / page numbers / paragraphs / figures etc.
8. A scheme & solutions does not mean the splitting of final marks into its component parts (example 2 + 2 + 4 + 2). It has to clearly show the expected answers / response for each component.
9. A scheme and solution which merely shows the component marks is liable to be rejected.
10. Whenever problems are given, make sure you give all the relevant data from the data handbook to avoid the issue of hand book / Tables / Charts etc.
11. Password for the Question Paper and the Scheme of Valuation is to be sent to the mobile no. **9900238242**. Please mention your **name** followed by **course code** and **password**. Let the password be in proper case as follows: QP <Course Code> and Scheme <Course Code>.
