## Report on Campus to Corporate Lecture Series on Virtual Platform BFSI Outlook and Opportunities

**Speaker:** Mr. Robin Mazumdar

**Organised by:** Centre for PG studies, Sindhi College

**Date:** 22<sup>nd</sup> December 2020

**Time:** 2.00 pm to 4.00 pm

Indian banking industry has recently witnessed the roll out of innovative banking models like payments and small finance banks. RBI's new measures may go a long way in helping the restructuring of the domestic banking industry. The digital payments system in India has evolved the most among 25 countries with India's Immediate Payment Service (IMPS) being the only system at level five in the Faster Payments Innovation Index (FPII). As per the Reserve Bank of India (RBI), India's banking sector is sufficiently capitalised and well-regulated. The financial and economic conditions in the country are far superior to any other country in the world. Credit, market and liquidity risk studies suggest that Indian banks are generally resilient and have withstood the global downturn well.

With this introduction, Mr Robin Mazumdar explained the BFSI sector, and how it has opened for young minds with ample of opportunities. The student community have to understand the existing opportunities and utilise them for their growth when they enter the job markets. He also addressed the challenges faced by the aspirants while entering the BFSI industry and how to tackle them with ready-skill baggage when a student goes out of the campus.

The program was attended by 44 students from III Semester M.Com, M.Com(F&A), Final year B.Com & BBA from Sindhi college. Mr. Vamsi Krishna of M.Com welcomed the gathering and introduced the guests to the audience and Ms.Kusum of M.Com gave the vote of thanks.
