ENVIRONMENT DAY 2021-22

DATE : 5th June, 2022

VENUE: Sindhi College Ground

5th June is highlighted as a red-letter day across the world and institutional bodies. The main idea behind celebrating World Environment Day was to highlight the importance of the environment and to remind the cadets that nature should not be taken for granted. The Environment Day was celebrated with enthusiasm, wherein various activities were designed for NCC cadets to perform such as planting saplings and '**ENVIRONMENT DAY DRIVE**'. Sindhi College celebrated this special day with great enthusiasm. We reported at sharp 7:00 AM and were ready and eager for this day that would be filled with learning and awareness. We brought few saplings and those saplings were fresh and healthy. Then, we dug some shallow pits in our college ground and planted the saplings after being instructed by our ANO, Lt. Shankara B P. Many quick - growing trees which do not need much water were planted on our ground. We were also made aware of how a tree sapling should be planted by selecting the right place and soil.

Later, all the cadets very passionately took part in spreading awareness among nearby localities about Environment day and its importance.

For this, our ANO had organized '**ENVIRONMENT DAY DRIVE**'. Many cadets had prepared boards and hoardings with quotes and slogans for this occasion. All of us marched for about 7Kms shouting slogans

such as "save trees, save soil, save earth", "small hands can change the world", "go green", "plant saplings, save the planet" and "mannannu ulisi,bhumiyannu ulisi" which translates to "save soil, save earth". We successfully managed to draw a lot of attention from people in nearby locality and create a positive general agenda to save trees among them.

After arriving back at the campus, all the cadets vowed to plant more saplings, save trees and hence continue spreading awareness. Realising that spreading news through internet is the fastest way to communicate and spread the idea, many volunteer cadets also took pictures and videos of cadets planting saplings and shouting slogans in order to spread awareness among fellow students and others through internet too.

The students were inspired and motivated to plant more trees in and around their own surroundings contributing to a healthier and cleaner society which in turn will make a greener Earth. **Number of NCC Cadets who participated in the activity were 18.**

Title of the talk	: Neither Him, Nor Her, But Me
Resource Person	: Dr. Akkai Padmashali
Organizing Department	: BA
Course	: BA, BBA, BCOM, BCA, BSC
Date	: 12 July 2022
Timings	: 12: 00 PM to 2:00 PM
Venue	: Auditorium

Report:

The talk on the topic “**Neither Him, Nor Her, But Me**” was organized by the department of BA. The speaker Dr. Akkai Padmashali, a recipient of Rajyothsava Prashasthi, the second highest civilian award of state government, Karnataka, and a state convenor of Na-Nayaki, social and political activist who represents the entire community of Transgenders in the state, was indeed a powerful influence on the young minds.

The speaker began by sharing her story to the students. The way she discovered her gender identity and how when she came out of the closet to the family, she was thrown out at the age of 8 to sleep in the busy streets of city market and was sexually exploited at a very young age. Going forward, her family took her back but with a condition to behave and act like a man. Although accepting the condition and staying with the family, things started to wear out during her adolescent age as she couldn't hide her identity anymore and this time more stronger, she had to rebel upto a point where she decided to end her own life. That was a turning point in her life which made her realize that she as an individual is PERFECT and not others who are expecting her to fake her identity.

Out of the realization was born a true revolutionist, who goes on to change the way the world see transgenders in the society. The speaker threw a light on the struggles that transgenders face on a daily basis. The way they are exploited sexually and otherwise. The speaker fondly remembered her late friend who had passed away on the road, and her body was lying in a public toilet, covered with maggots and nobody to hep burry the body. She expressed how officials in a very well known

hospital facility and cemetery declined to conduct postmortem or cremate the body only because her friend who had passed away was a transgender and also had no proof of identity which was declined by the government. This incident deeply hurt the very sentiments of all the transgendered community and learning this incident the speaker in the year 2016 donated her body for medical research. Soon after her introduction to her past, she challenged the entire audience with a question who are transgenders? Although the answer to this was a easy one, yet the complexity of the question invoked curiosity among all those who were present. The entire session resonated loudly that left the audience not only accepting transgenders as a part of the society but also to understand that every human being has a right to chose his or her own identity and one must be respected not because of their gender but simply because they are human being.

Soon after the talk was over, the forum was open for questions. The speaker was kind enough to address every question that was posed and also engaged in debunking many myths that were traditionally associated with transgenders. In concluding, the talk was not just an eye opener but also was very effective in making the audience understand that they are also people like any other and accepting them and sensitizing them to gender inclusivity and gender fluidity was the essence of the talk. The talk concluded with taking an oath by everyone to respect and not treat any human being with disgust and shame.
