- Based on the presentation styles that students (on the Day 1 or Day 2) had delivered are quite unique and full of creativity. Students were divided in to multiple groups (Team Building) asked to build their organization with one logo, Punch line, set of key roles such as CEO, HR manager, Finance manager, Brand Manager & So forth( Roles & Responsibility) and develop their plans based on the current market trends in a short span of time.
- According to the plans, students needed to present themselves in front of audience. Example CEO would introduce the team and organization , Finance manager would talk about merger & acquisitions plans , Budget , Funding etc. HR head would talk about recruitment , talent attract plans, Diversity, equality & Inclusion plan, Women empowerment & so on where as Brand manager would speak on promoting plans ,media or channels that should be used.
- At the end of the day, these skills refer to the ability to effectively deliver information, ideas, or messages to an audience in a clear, engaging, and persuasive manner

These skills are crucial in various professional settings, including business meetings, conferences, academic presentations,

## Here are some the key insights that students had gained from this activity:

All the groups had chosen industries such as Healthcare & Cosmetic industry, Education, Jewelry products, Restaurant chain, Smart electric switches, amusement or entertainment, Pharma, Banking & many others.

- 1. Confidence and Poise: Most of the Students from BBA Bcom & BCA had exuded confidence and maintained a composed demeanor during their presentation. Some of the students were effective presenters & practiced their delivery, managed nerves, and projected a positive and professional image throughput the activity. Few of the groups tried their level best to exuberate confidence & stayed focus.
- 2. Clarity and Conciseness: Most of the Bcom ,BBA & BCA Students communicated their ideas very clearly and concisely. Using simple language, avoiding jargon, and explaining complex concepts in a way that is easily understandable to the audience was essential. Probably on the content & technical side, BCA students were more aggressive & better prepared.
- 3. Verbal and Nonverbal Communication: BBA & BCom Students were effective presenters & paid attention to both verbal and nonverbal communication. This includes using an appropriate tone of voice, varying speech rate and volume, maintaining eye contact, and using gestures and body language to enhance their message. Nonverbal cues such as convey confidence, credibility, and engagement, creating a positive impression on the audience.

- 4. Audience Engagement: Engaging the audience throughout the presentation was crucial to maintain their attention and interest. Few of them started with a wonderful story and using storytelling techniques, they had managed to engaged the audiences. Few BBA students were really good at this.
- 5. Team Player, Adaptability, Flexibility: Since this was a time-bound activity, students had to be adaptable & flexible. All the more they had to prepare in an unknown group (Batches were bifurcated randomly). Intent was to segregate a batch where students had to be team player, relevant and impactful.
- 6. End of this activity, groups were electrified & brimmed with energy. They understood the importance of public speaking, presentation skills and showcased their arts in a time-bound activity. Since everyone in the group has to speak at least for a minute or so, everyone tried to communicated irrespective of their caliber. What really stood out was the effort from each individual who represented themselves

## **Detailed Training Plan**

## Mock Sessions

These mock sessions for students are the practice sessions designed to simulate real-life job interview scenarios. These sessions aim to help fresh graduates or students with limited interview experience prepare for job interviews by familiarizing them with the interview process, improving their communication skills, and enhancing their confidence. Most crucial part was the feedback. Below is the sample copy of the feedback form

## **Objectives**

 Introduction and Explanation: Begin by introducing the purpose and format of the mock session. Explain that it is a simulated job interview designed to provide practice and constructive feedback to improve interview skills.

- Interview Scenario: Set up a scenario that reflects the type of job the candidate is preparing
  for. This may include providing a job description, company background, and any specific
  requirements or expectations.
- Interview Questions: Prepare a set of common interview questions that candidates are likely
  to encounter. These questions may cover topics such as strengths and weaknesses, previous
  experiences, problem-solving skills, teamwork, and career goals. Use a mix of behavioral,
  situational, and technical questions relevant to the role.
- Role-play: Conduct the mock interview, taking on the role of the interviewer. Encourage the
  candidate to respond to each question as they would in a real interview. Pay attention to their
  communication skills, body language, confidence, and the quality of their answers.
- 5. Feedback and Guidance: After each question or at the end of the interview, provide constructive feedback to the candidate. Focus on areas such as clarity of responses, organization, use of relevant examples, confidence, body language, and overall impression. Offer suggestions for improvement and provide tips on how to address specific weaknesses or challenges.
- Q&A and Discussion: Allow the candidate to ask questions at the end of the mock session.
   Encourage an open discussion about the interview process, the candidate's performance, and any specific concerns or areas of improvement.

#### **Achievements**

Post these mock sessions with each individual, we achieved the below areas & shared feedback with each Individual.

- Skill Development: Post these Mock sessions, students developed and refined their interview skills, including their ability to articulate their experiences, skills, and career aspirations effectively.
- Confidence Building: Major purpose was to instilling confidence amongst them. By participating in these mock sessions, students gained confidence in their ability to handle interviews & significantly reduced nervousness and anxiety.
- Awareness of Weaknesses: Mock sessions shall help candidates identify areas where they
  need to improvement, such as communication skills, problem-solving abilities, or specific
  technical knowledge.
- Interview Practice: mock sessions provided opportunities to practice common interview questions (Technical + Marketing + HR + Finance + Logistics) and develop concise and impactful responses.
- Feedback and Guidance: Constructive feedbacks from the interviewer shall help freshers understand their strengths and weaknesses, allowing them to focus on areas that need improvement.

6. Familiarity with Interview Process: Mock sessions shall help candidates become familiar with the structure and dynamics of job interviews, enabling them to feel more at ease during real interviews.

## Summary & Suggestions

The outcome of the learning intervention can have a significant impact on their professional development and career trajectory; however, it may subside if they do not continue on practicing. Here are the below common observations that we noticed during this program

 Art of Communication: Initial goal was to fully focus on communication, active listening, and expressing ideas and concerns clearly & concisely; post to this program at least 50% - 60% of the students from these batches (1st, 2nd & 3rd batches) can successfully able to communicate confidently during the interview. We felt that 20 - 30% from this lot are over confident in the interview and rest of them still need to work on their communication & presentation style.

- 2. Increased Confidence: Another goal was to increase confidence level during the interview & various activities those we are staged during this learning intervention. With this program, we feel 60% of the students with good communication who gained knowledge and expertise through the learning intervention, their confidence level had certainly grown by miles. They feel more prepared to face job interviews, handle workplace challenges, and take on new responsibilities. Increased confidence can now positively influence their performance and interactions in personal & professional settings.
- Job Readiness & off-Campus interview: Undoubtedly students are now better prepared to
  enter the job market at least with basic skill set, a resume, and an understanding of how to present
  themselves effectively in interviews.
  - i. But we felt students need to get exposed to more interviews outside of Campus. This process would enhance them to understand the current job market. This shall give a clear-cut idea about the actual job roles, salary expectations or remunerations in a better way. We felt 50-60 % students are still not at all job ready or not looking for jobs actively.
  - ii. Arranging Off-campus interviews can make them more interested. Weekend (sat/sun) basis Many companies such as Northern Trust, EY organize interviews at their premises. It would be better idea to send them to these interviews in small numbers (Only those are ready) and keep a track of those students.
  - iii. Face the Rejection: Sooner they face it, better it shall help for their career.
  - iv. Another best thing is that 20 30 % of the total students (especially BBA & BCA batches) are ready to look for fulltime internships with Good brands where they should learn about the roles, gain industry knowledge and post to that they can be more aligned to the industry needs.
- 4. Aware of Current Industry Roles: This learning intervention can help students gain clarity about their career goals. But most of the students are still unaware about the Job roles and responsibilities, current industry patterns and roles. Most of the students need to undergo sessions from Industry professionals or need to undergo at least 30 days mandatory fulltime actual internships.
- 5. Aptitude Skills: With the set of aptitude skills, students are now able to gauge the question pattern and with the right amount of practice, they definitely crack the initial rounds of interview as many companies prefer aptitude test as elimination round.
- Super 50 Portfolio: Esteemed Education institute like Sindhi college can build a portfolio of super
   Students from various groups based on their communication style, Persona & diverse academic background.
  - Start putting emphasis from the beginning of the 2<sup>nd</sup> of the academic year, will help them to grow in a sustainable way.

- II. With a through focus in participating in Management Fests/Business Quizzes outside of campus,
- III. Boosting confidence by sending invite for engaging seminars,
- IV. Full-fledged internships amongst top ranked brands
- V. Ultimately place them in 20-30% higher package than the market rate or place early from Campus. This approach will also help to create competition amongst students.
- 7. Networking Opportunities: Education institute should facilitate some networking opportunities from previous batches and the current batch students through Online/offline engagements. Engaging with industry professionals, mentors or alumni would lead to valuable connections that may result in internships, job offers, or ongoing support and guidance.
- 8. Continued Learning Mindset: Participating in one such learning intervention may not be helpful. Various recommended institutions who provide technical /soft-skills program should be welcomed in campus to demonstrate. Student can enroll for the programs based on the interest. Thus, students can recognize the importance of continuous self-improvement and seek out opportunities for ongoing professional development throughout their career.
- 9. Weekly basis Professional Mentorship: Sindhi College of Students should have easy access to mentors or industry experts who offer guidance and advice to weekly basis (at least 1 session in a week). This kind of weekly mentorship can be invaluable in navigating the early stages of a career, providing personalized support and insights that help participants make sound decisions.
- 10. Emotional Intelligence & Personal Growth: Building a mechanism with mix of professional and social Learning interventions are required for the students to strengthen the emotional intelligence and build a platform for personal growth and sustainability. This shall contribute to their personal growth throughout their career. A sense of better self-awareness, greater adaptability, and improved communication skills, which positively impact in both their personal as well as professional lives.
- Role of a Freelancer & upcoming Gig economy: Building an alternate sustainable career such as YoGa Teacher, Brand Designer, Social media influencer can be fulfilling and preparedness is also crucial in upcoming gig economy.
- 12. Overall, we tried to deliver a well-executed learning intervention for freshers which can empower them to take charge of their careers, build a solid foundation of skills, and set themselves on a path towards long-term success and fulfillment.

### INITIATIVE OF IQAC CENTRE FOR PG STUDIES

### VALUE-ADDED PROGRAMME REPORT FOR ADVANCE EXCEL

In order to provide a value-added curriculum for first-semester M.com and M.com [FA] students, the Centre for PG Studies at Sindhi College partnered with Edify Institute. Expertly planned and coordinated the 40-hour certification programme for Data Management and Analysis Using Advance Excel. The course was conducted between 26/6/2023 to 25/7/23 & 40 Hours. Our seasoned instructors Mr. Vignesh, Mr.Rakshith and Ms. Shreyas, who have extensive expertise as experienced specialists in training Excel, will be delivering this course. Case studies, group projects, theory, and practical exercises are all used to teach the course.

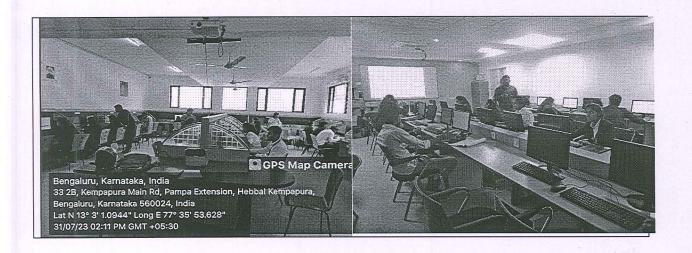

Educated students Statistical, financial, and logical database functions, conditional formatting, pivot tables, and advanced table formatting. Advance Excel's sharing feature fosters teamwork, enhances data accuracy, encrypts confidential documents and information, saves time by enabling everyone to view the same data, and can boost overall productivity.

The resource person also covered employment prospects because the software is a great option for companies of any size or industry trying to enhance their data analysis capabilities, which is very advantageous for students' employment prospects. Students who successfully complete this course are given certificates.

### INITIATIVE OF IQAC CENTRE FOR PG STUDIES

### VALUE-ADDED PROGRAMME REPORT FOR POWER BI

Sindhi College collaborated with NICT Computer Education to offer a value-added program for third-semester M.com and M.com [FA] students. Mr. Rakshith, Ms. Shreyas, and Ms. Priyanka were the trainers for the Power BI Value Added program. It is a 40-hour course and was conducted between 19/12/23 to 29/3/23. 31 students have benefitted from the course. Students learned Data Modeling and Dax Syntax, as well as visualizing data, editing report interactions, adding and linking bookmarks, and tooltips, and creating a Pivot Table from a Power BI Dataset. The software has a plethora of features that make it an excellent choice for both data analysts and business executives. Among these features are data modeling, visualization, dashboards, data transformation, and data manipulation. The resource person also discussed job opportunities, as the software's flexibility and scalability make it an ideal choice for businesses of any size or industry looking to improve their data analysis capabilities, which is extremely beneficial for students' job opportunities.

Students can invite others to collaborate with them, allowing multiple users to work on a project at the same time. Users can also collaborate and solve problems in real-time by participating in live sessions. Administrators can also manage permissions and access controls, which can be customized based on the user's role within the organization. The sharing function in Power BI promotes teamwork, improves data accuracy, saves time by allowing everyone to see the same data, and can increase overall productivity. To begin with, a value-added program on Power BI is beneficial to students' careers.

### Training methodology

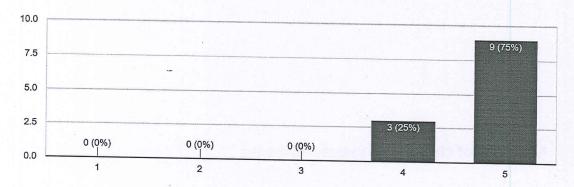

It's combination of theoretical and practical sessions. We have introduced to a concept and used hands-on session to further strengthen their understanding of the concept.

Following assessment methodology were used to evaluate the students

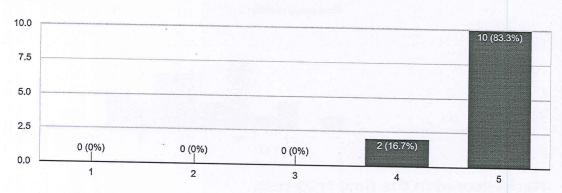

- 1. Pre-assessment test Random questions
- 2. Attendance and attentiveness in the class
- 3. Completion of hands-on session
- 4. Completion of assignments
- 5. Feedback
- 6. Post-assessment test Written test

We have conducted a pre-assessment and post assessment test using google form. Soft copy of feedback and post assessment test is handed over to the training co-ordinator.

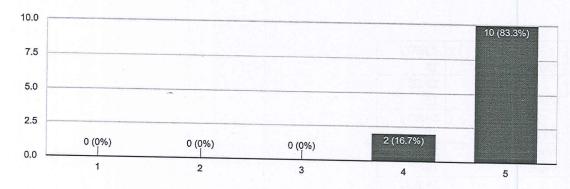

How do you rate the Hands on session of the training? 12 responses

Did the session create interest to know more about the Cloud Computing? 12 responses

#### **Training methodology**

It's combination of theoretical and practical sessions. We have introduced to a concept and used hands-on session to further strengthen their understanding of the concept.

Following assessment methodology were used to evaluate the students

- 1. Pre-assessment test Random questions
- 2. Attendance and attentiveness in the class
- 3. Completion of hands-on session
- 4. Completion of assignments
- 5. Feedback
- 6. Post-assessment test Written test

We have conducted a pre-assessment and post assessment test using google form. Soft copy of feedback and post assessment test is handed over to the training co-ordinator.

#### Lab setup

Required software has been installed on the desktop systems in the computer lab. Students were provided good hands-on exposure.

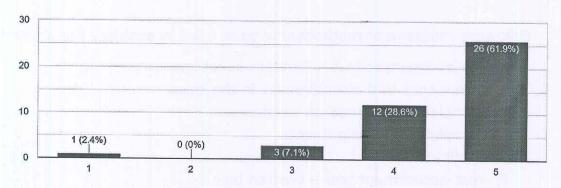

#### Analysis of the student's participation during training

About 90 % of the students took the training seriously and interacted well with the trainer. They have completed the given assignments. They have made good use of the training facility provided by the college.

#### Analysis of the feedback received from students.

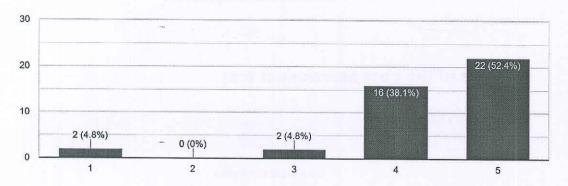

We have received feedback from 42 students. Every one felt that training is Very good/good as it had helped them to understand Block Chain. Please find below the feedback analysis.

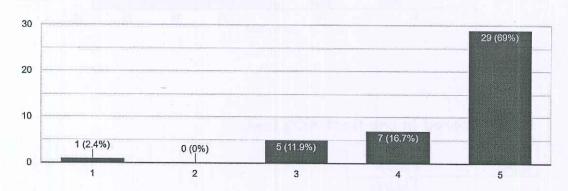

How do you rate the Hands on session of the training?

### 1. Introduction

Global Business is increasingly confronted with the need to participate and manage in a real-time digital environment. Hence businesses need to consider how to take advantage of digital technologies as a tool and potential imperative for competitive advantage and whether their current marketing strategies are coherent with strategies for the digital market. Designed to provide students with a comprehensive understanding of the impact of marketing in the digital environment, Digital Marketing targets the Web, mobile, iPads as well as social media in the context of both their technological underpinnings and facilitation of delivery mechanisms. Students investigate globalisation, adaptation, and real-time communication issues together with new forms of segmentation and an entire new paradigm of understanding consumer in this rapidly changing digital environment.

Digital Marketing is all about using data to realize marketing objectives. It is the art of using consumer insights to formulate marketing strategies targeted at groups of customers online.

Digital marketers leverage digital channels such as search engines, social media, emails and websites to help their clients connect with existing and potential customers. They then proceed to collect data gathered from these digital channels (such as checking the number of impressions or likes on Instagram) and Google Analytics to plan their marketing strategy.

Which need to be integrated into the curriculum of college. Students need to be trained to handle the huge marketing strategies, not only make sense out of it but learn to present the results in clear and concise form.

Edify has capability and expertise in the Digital Marketing domain. We have not only been using various marketing ideas during our own research, but we have also been conducting training programs in digital marketing using available tools. We have initiated the Digital Marketing course/workshop in several Colleges and received very encouraging response from students as well as program administrators. Our unique end to end approach in making the students go through the entire research process has resulted in providing competitive advantage to the students.

### Report on Digital Marketing

Digital marketing certificate course was conducted from 17<sup>th</sup> October – 7<sup>th</sup> November 2022 for all the students of 1<sup>st</sup> semester B.Com A and B sections in two batches as a value added programme. There were a plethora of topics covered in the span of 40 hours which included marketing importance, objectives of marketing, contents of marketing etc. The sessions were highly interactive, hence making sure that all the students were involved. Every topic was followed by practical based learning. Students were presented with case studies for various topics like influencer branding and personal marketing for a holistic understanding of the subject. Trainer Mr. Rakshith and Ms. Priyanka taught the students how to build an online reputation, email etiquettes etc. Assignments and projects were given to the students and checked on a daily basis. Apart from digital marketing students learnt to build an effective video resume and do attractive power point presentations. After every session feedback was taken from the students and worked upon by the trainers. Four weeks long course was concluded with an exam and by receiving a certificate for the course completion. The total 145 students were benefitted out of this program.

#### Thank you

Please accept our sincere thanks for the excellent support provided by SINDHI COLLEGE and staff in organizing the Digital Marketing training for Bcom Students. We have received some very good responses from the attendees.

We are impressed by the facilities provided in the Session Hall for conducting the event. SINDHI COLLEGE technical and administrative staff was very skill full in handling the program. The effort of SINDHI COLLEGE team contributed appreciably to the success of the program.

The effectiveness of the interaction between the trainer and the students was enhanced by the timely support given by SINDHI COLLEGE staff during the program. We believe this program was one of the most productive ones we have has in the past.

Thank you once again for the outstanding support and professionalism shown. Looking forward to working with SINDHI COLLEGE in the future.

Request to share an opinion us regarding training program through email.
