SINDHI COLLEGE
DEPARMENT OF COMMERCE
SUB: Goods and Service Tax
REMEDIAL EXAMINATION (2023-24)

I. Answer any FIVE of the following questions. **2X5=10**

1. Enumerate meaning of Input Tax Credit ?
2. What is Intra State Supply?
3. Define Mixed Supply?
4. What are taxed subsumed under GST?
5. Expand PAN & IGST?
6. What is Reverse Charge?

II. Answer any three of the following questions. **5X2=10**

1. Differentiate between mixed and Composite Supply?
2. From the following information of S & Co. for the month of July, 2018:
   (1) Purchases of Raw material A from a supplier in Mysore □ 1,00,000 at 5% GST.
   (2) Purchases of Raw material B from Kerala 5,00,000 at 12% GST

   Sales of S & Co. for the month of July, 2018 are as follows:
   (1) Sales of t 3,00,000 within the state at 18% GST
   (2) Sales of 73,00,000 within the state at 12% GST

   Compute eligible Input Tax Credit and Net GST payable for the month July, 2018

III. Answer any three of the following questions. **10X1=10**

1. Ms. Swathi a dealer submits the following information in relation to manufacture and selling of drilling machine. Compute the net GST liability form the following information.
   Particulars

a) Import of raw-materials (excluding 10% of BCD on import) Rate of IGST 5% 1,40,000
b) Raw materials purchased from Karnataka (including CGST at 14% & SGST @ 14%) 5,12,000
c) Raw materials purchased from Kerala excluding IGST 5% 40,000
d) Subsidy received from an NGO which was directly related to Price of the goods 13,000
e) Manufacturing expenses 3800
f) Subsidy received from Central Government which was directly linked to the price of the product 14000
g) Additional incentives paid to the employees of Sales department 3000
h) Warranty charges 9600
i) Exempted services received in connection with the manufacture 6600

Along with the machine he supplied 3 components at a fixed price of 15,000 each of these components are naturally bundled with the supply of the machine. The GST rate of the three products is 28%, 5% and 12% respectively.
Ms. Swathi sold the machine to Ms. Preethi at a profit of 15% on the cost of production and the rate of GST on such sales in 18%.

SINDHI COLLEGE
DEPARMENT OF COMMERCE
SUB: Goods and Service Tax
REMEDIAL EXAMINATION (2023-24)
Answer Schem

I. Answer any FIVE of the following questions. **2X5=10**

1. Input Tax Credit: Input Tax Credit or ITC is the tax that a business pays on a purchase and. that it can use to reduce its tax liability when it makes a sale.
2. Intrastate supply of goods or services is when the location of the supplier and the place of supply i.e., the location of the buyer are in the same state.
3. A mixed supply is two or more independent products or services which are offered together as a bundle but can also be sold separately
4. VAT, Central Sales tax, Sales tax, Excise Duty.
5. PAN: Permanent Account Number
   IGST: Integrated Goods and service tax
6. Reverse Charge means the liability to pay tax is on the recipient of supply of goods or services instead of the supplier of such goods or services in respect of notified categories of supply.

II. Answer any three of the following questions. **5X2=10**

3. Differentiate between mixed and Composite Supply?

Composite Supply	Mixed Supply
i. Consist of Two or More Supply & one of which is a *Principle Supply.*	**i. Consist of Two or More Supply made together for Single Price.**
ii. Naturally Bundled.	**ii. Not Naturally Bundled**
iii. Supplied in combination with each other	**iii. Though can be supplied independently, still supplied together.**
iv. Tax Liability shall be the *rate of Principle Supply.*	**iv. Tax liability shall be the *rate applicable to the supply that attract highest rate of tax.***
Example:- Charger supplied along with Mobile Phones	**Example:- A Gift comprising of Chocolates & Sweets.**

4. Computation of GST Payable

	CGST	SGST	IGST
Out put Tax payable			
Sale within State (3l *9%)	27000	27000	
Sale within State (3L *6%)	18000	18000	
Total A	**45000**	**45000**	
Input tax credit eligible on inputs			
Purchase of RM A (1L *2.5%)	2500	2500	
Purchase of RM from Kerala			60000
Total B	**2500**	**2500**	**60000**
Balance tax Payable (A-B)	**42500**	**42500**	**(60000)**
Less Inter Head Set Off of IGST	**(42500)**	**(17500)**	**60000**
Balance	**0**	**25000**	**0**

III. Answer any three of the following questions. **10X1=10**

1. Ms. Swathi a dealer submits the following information in relation to manufacture and selling of drilling machine. Compute the net GST liability form the following information.
Particulars

j) Import of raw-materials (excluding 10% of BCD on import) Rate of IGST 5% 1,40,000
k) Raw materials purchased from Karnataka (including CGST at 14% & SGST @ 14%) 5,12,000
l) Raw materials purchased from Kerala excluding IGST 5% 40,000
m) Subsidy received from an NGO which was directly related to Price of the goods 13,000
n) Manufacturing expenses 3800
o) Subsidy received from Central Government which was directly linked to the price of the product 14000
p) Additional incentives paid to the employees of Sales department 3000
q) Warranty charges 9600
r) Exempted services received in connection with the manufacture 6600

Along with the machine he supplied 3 components at a fixed price of 15,000 each of these components are naturally bundled with the supply of the machine. The GST rate of the three products is 28%, 5% and 12% respectively.

02

Section-B

Composite supply	Mixed supply
1) Consist of two or more supply & one of which is a principle supply	1) Consist of 2 or more supply made together for single price.
2) Naturally Bundled	2) Not Naturally Bundled
3) Supplied in Combination with each other	3) Though Can be supplied independently still supplied together.
4) Tax liability shall be the rate of principle supply	4) Tax liability shall be the rate applicable to the supply that attract highest rate of tax.
5) Example:- Charger supplied along with mobile phones	5) Example:- A Gift Company for chocolates and sweets.

05

2) Illustration:-01

Computing of GST payable

particulars	CGST(₹)	SGST(₹)	IGST(₹)
Out put Tax payable:			
Sales with in the State [300,000 × 9%]	27000	27000	-
Sales with in the State [300,000 × 6%]	18000	18000	-
Total	45000	45000	
Input tax Credit Eligible on Input			
i) purchase of Raw material A [100,000 × 2.5%]	2500	2500	-
ii) purchase of Raw material B from Kerala [5,00,000 × 12%]	-	-	60,000
Total	2500	2500	60,000
Balance tax payable or Excess [A-B]	42500	42500	(60,000)
(-) Inter head set off IGST towards CGST & SGST	(42500)	(17500)	60,000
Balance to be payable or Excess balance available in Electronic Credit ledger	-	25000	-

Section :- C

Illustration:-09

Calculation of Transaction value

particulars	Amt ₹
Import of raw material [Including BCD but excluding GST to be taken] [1,40,000 + 10%]	1,54,000
Raw materials purchased from Karnataka [excluding GST] [5,12000 × 100/128]	4,00,000
Raw material purchased from Kerala [excluding GST]	40,000

(+) Subsidy received from an NGO which was directly related to price of goods.	13000
Manufacture Expenses	3800
Additional incentives paid to the Employees of Sales department.	3000
Warranty Charges	9600
Exempted Services received in Connection with the manufacture	6,600
Subsidy received from Central government which was directly linked to the price of product	Exempted
Total Cost	6,30,000
(+) Profit margin of 15% on Cost [6,30,000 × 15%]	94500
Cost of materials supplied	7,04500
(+) Components supplied along with machinery [1500×3]	4500
Total Transaction Value	7,69,500

Calculation of GST payable

Particulars	CGST ₹	SGST ₹	IGST ₹
Output tax payable			
Sale of machine within State [7,69500 × 9%]	69225	69225	–
Total	69225	69225	–
Input tax Credit Eligible on Input			
Tax Imposed of raw material [1,54000 × 5%]	–	–	7700
Raw materials purchased from Karnataka [400000 × 14%]	56000	56000	–
Raw material purchased from Kerala [40000 × 5%]	–	–	2000
Exempted Service received to manufacture	–	–	–
Total	56000	56000	9,700
Balance tax payable as below [A-B]	13225	13225	(9700)
(-) Inter head set off of GST towards CGST	(9700)	–	(9700)
Balance to be payable or Excess balance available in Electronic Credit ledger	3525	13225	Nil

SUB: Electronic Content Design

Class:VI SEM BCA- 'A' & 'B'
Date:02 / 07 / 2024

Max Marks:40
Time : 1 Hr

I Answer any 3 questions: **3 x 2 = 6**

1. What is Cohert Learning?
2. Define Wire Framing.
3. What is ADDIE MODEL?
4. What is E-Content?

II Answer any 2 questions: **2 x 5 = 10**

1. Explain any two File Formats in Graphic Design.
2. Explain the history of E-Learning.
3. Explain the phases of ASSURE Model.

III Answer any 3 questions: **3 x 8 = 24**

1. What is Online Course? Explain.
2. Explain Phases of ADDIE model with Diagram.
3. What is Online Course? Explain.
4. Briefly Explain the Key Features of a Content Management System.

SINDHI COLLEGE
33/2B,HEBBAL,KEMPAPURA,BANGALORE-560024
REMEDIAL EXAMINATION -SCHEME
Electronic Content Design

SECTION A:

1. What is Cohert Learning?

Ans: Cohort learning is a collaborative learning model where students learn together in groups, and it can be used in electronic content design .

Definition – 2 marks

2. Define Wire Framing.

Ans: Wire framing is a process for designing the structure and flow of a website or app before adding visual design and content. It's a vital skill for UX designers and is often used in the early stages of the design process.

Definition – 2 marks.

3. What is ADDIE MODEL?

Ans: The ADDIE model is a popular instructional design framework that helps you design effective training programs. It's a systematic approach that involves five stages: Analyze, Design, Develop, Implement and Evaluate.

Definition – 2 marks.

4. What is E-Content?

Ans: E-content, or electronic content, is digital information that is delivered over a network or computer network, such as the internet. It can include text, images, graphics, animation, audio, and video.

Definition – 2 marks.

SECTION – B:

1. Explain any two File Formats in Graphic Design

Ans: 1.JPEGs are raster images and are composed of hundreds and hundreds of tiny pixels. They are known as "lossy" files because when a JPEG is created, to maintain a smaller file size, some unnecessary information is permanently deleted or lost. Think of it like taking a photocopy of your favorite picture, the photocopy still looks like the original photo, but some of the original data is lost. Likewise, because the information in a JPEG is limited, they cannot be made larger once they are a certain size.

2. "Portable Network Graphics" PNG file compression is lossless, so there is no loss in quality, giving them the ability to handle detailed, high contrast information. PNGs are great for use on the web but are not ideal for print. They are crucial to producing files that JPEGs can't effectively create and are the top (or only) choice for when you need a clean logo or text over other visual elements on the web.

Mention the file formats two in detail – 5 marks.

3. Explain the history of E-Learning.

Ans: The popularity of elearning has accelerated over the past few decades and is benefiting organizations across the globe today. It is useful to understand how and why this change has occurred by looking at the past of elearning.

In 1999, **Elliot Maisie** coined the term 'elearning' which sparked the rise in the term's use and reputation. The rise of elearning has been facilitated by several factors to allow it to become the most popular way of delivering training. These factors include:

The rise of the internet – previous to this, many relied on the use of printed manuals, CD-ROMS, and other restrictive methods for learning and training. The rise of the internet allowed for flexibility and increased interactivity for learning, abandoning one-dimensional practices. Resulting in virtual learning environments beginning to truly thrive, with people gaining access to a wealth of online information and elearning opportunities.

1. **Development of Multimedia** – learner engagement improved, compared to traditional learning, as the ability to integrate different elements including images, audio, video, and graphics grew. This has subsequently improved the elearning experience of users.
2. **Affordable Digital Devices** – with the first IBM computer costing the equivalent of $5000 today, the accessibility of computers was low. Today, however, the prices of digital devices of laptops and phones have become more accessible to all, leading to the rise of elearning. Mobile learning has particularly facilitated the growth of elearning as it is easier for individuals to learn about particular subjects and develop skills.
3. **Well-Built Learning Management Systems (LMS)** – the LMS concept emerged directly from the rise of elearning. Many LMSs are now highly sophisticated allowing organizations to execute various forms of training. This has been seen through the movement from locally installed to cloud-based systems.

Mention the mentioned above History of Internet – 5 marks.

4. Explain the phases of ASSURE Model

Ans: The ASSURE model is an instructional design model that helps teachers create lessons that engage students and meet their learning needs. The model's six phases are:

- Analyze learners: Consider the learners' abilities, learning patterns, and intelligence level.
- State objectives: Set clear learning objectives.

- Select methods, media, and materials: Choose the appropriate materials and technology for the lesson.
- Utilize media, materials, and methods: Use the selected materials and technology in the lesson.
- Require learner participation: Encourage learners to participate in the learning process.
- Evaluate and revise: Use assessments and learner input to evaluate the lesson and make improvements. The ASSURE model is well suited for creating remote learning programs because it emphasizes the use of technology and media. It also encourages interactivity and connection between learners, regardless of their location.

Mention the above phases of assure model – 5 marks.

SECTION C :

1. What is Online Course? Explain.

Ans: An online course is a virtual learning experience that can be used to learn a variety of subjects, including electronics and content design:

1. Electronics:

Online courses can teach you about the basics of electronics, including how electricity works and the history of electronics.

2. Content design:

Online courses can teach you how to apply content design techniques to any type of content. Some skills you can learn include how to use data to inform your content, write in plain language, and structure your content for readability.

Online courses can be flexible and engaging, and they can be taken at your own pace. Some online courses are synchronous, meaning students learn together at the same time, while others are asynchronous, meaning students learn on their own at their own pace. Online courses can also be a combination of both synchronous and asynchronous learning experiences.

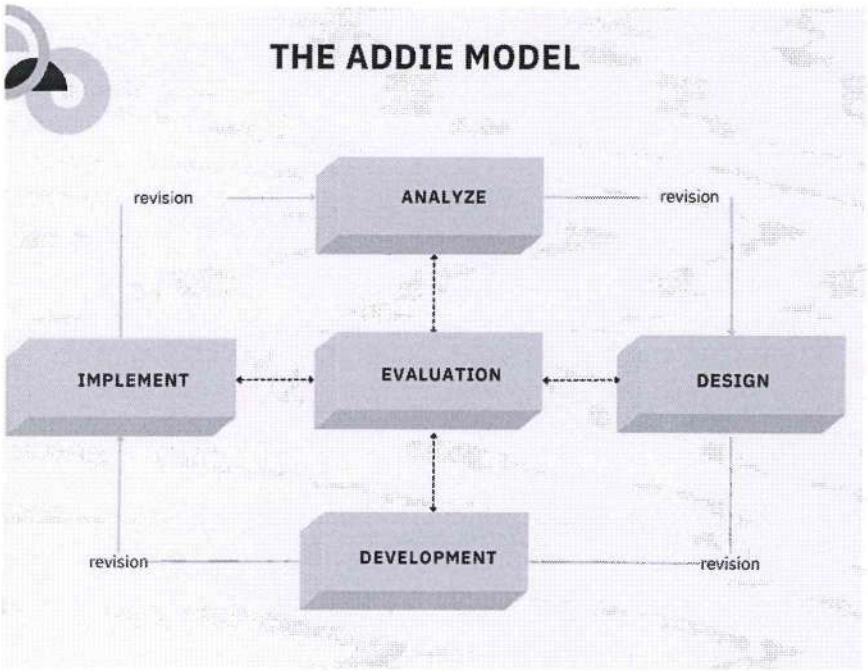

Mention the online courses in detail – 8 marks.

2. Explain Phases of ADDIE model with Diagram.

Ans: The ADDIE model is a five-phase instructional design framework that's used to create and improve eLearning materials. The phases are:

- Analysis: Identify the problem and stakeholders' needs. This phase often starts with a training needs assessment to determine if training is the right solution.
- Design: Create an outline that includes learning objectives, delivery methods, and assessment.
- Development: Create the training content, including visuals, videos, and interactive elements.
- Implementation: Deliver the training and manage project logistics.
- Evaluation: Gather feedback and analyze assessment results.

The ADDIE model can be used to create a wide range of training materials, including e-learning courses, interactive training modules, manuals, study guides, educational games, assessments, questionnaires, videos, and tutorials.

Mention the explanation ADDIE MODEL – 4 marks

Diagram – 4 marks.

3. What is Online Course? Explain.

Ans: An online course is a virtual learning experience that can be used to learn a variety of subjects, including electronics and content design:

1. Electronics:

Online courses can teach you about the basics of electronics, including how electricity works and the history of electronics.

2. Content design:

Online courses can teach you how to apply content design techniques to any type of content. Some skills you can learn include how to use data to inform your content, write in plain language, and structure your content for readability.

Online courses can be flexible and engaging, and they can be taken at your own pace. Some online courses are synchronous, meaning students learn together at the same time, while others are asynchronous, meaning students learn on their own at their own pace. Online courses can also be a combination of both synchronous and asynchronous learning experiences.

Explanation of Online courses in detail – 8 marks.

4. Briefly Explain the Key Features of a Content Management System.

Ans: A content management system (CMS) is a software application that helps users store, manage, and create content. Some key features of a CMS include:

1. Content creation and publishing

   A CMS allows users to create and modify content using templates, wizards, and other tools.

2. Revision control

   A CMS tracks changes made to files and allows users to update and edit content after it's been published.

3. Search and retrieval

   A CMS indexes data so users can easily search for it by attributes like keywords, author, or publication date.

4. Format management

   A CMS can convert scanned documents and electronic documents into HTML or PDF.

5. Role-based access control

   A CMS allows businesses to define roles and permissions to control who can access and edit different parts of a website.

6. Analytics and reporting

   A CMS can provide insights into user demographics, page views, and engagement metrics.

7. Responsive design

   A CMS should be able to deliver content across different devices and platforms.

8. Real-time collaboration

   A CMS can include features like commenting, version control, and track changes.

Explanation of Features of Content Management System in detail – 8 marks.
