TEST

Total Marks (30)

1. UNIVAC is
a. ☒ Universal Automatic Computer
c. Unique Automatic Computer
b. Universal Array Computer
d. Unvalued automatic Computer 2
2. ALU is
a. Array Logic Unit
c. ☒ Arithmetic Logic Unit
b. Application Logic Unit
d. None of Above 2
3. VGA is
a. Volatile Graphics Array
c. ☒ Visual Graphics Array
b. Video Graphics Adapter
d. Video Graphics Array 2
4. CD - ROM stands for
a. Compactable Read Only Memory
c. ☒ Compactable Disk Read Only Memory
b. Compact Disk Read Only Memory
d. Compact Data Read Only Memory 2
5. The capacity of 3.5 inch floppy disk is
a. 1.40 MB b. 1.44 GB c. 1.40 GB d. ☒ 1.44 MB 2
6. Software is
a. Set of Devices b. ☒ Set of Programs c. Not a set of Program d. None 2
7. MICR stands for
a. Magnetic Ink Character Reader
c. ☒ Magnetic Ink Code Reader
b. Magnetic Cases Reader
d. None 2
8. MSI stands for
a. Medium Scale Intelligent Circuit
c. Medium System Integrated Circuits
b. Medium Scale Integrated Circuits
d. ☒ Medium System Intelligent Circuit 2
9. WAN stands for
a. Wireless Area Network b. Wrap Area Network c. Wide Array Net d. ☒ Wide Area Network 2
10. Drivers are used
a. To use the Device b. To store data c. ☒ To work d. None 2
11. Father of computers
a. Blaise Pascal
c. John Von Neumann
b. ☒ Charles Babbage
d. None 2
12. All the Program are converted to
a. Machine Level Language
c. Assembly Level Language
b. High Level Language
d. ☒ All the above 2
13. Peripheral Devices are
a. Input Devices
c. ☒ Both
b. Output devices
d. None 2
14. Translators are
a. System Software

Section-A

① Q:- According to American Institute of Certified public Accountants. "Accounting is an art of recording, Classifying and summarising in a significant manner and in terms of money transaction and events which are in part least, of a financial character and interpreting the results thereof."

② Q A debit is an accounting entry that results in either an increase in assets or a decrease in liabilities on a company balance sheet.

③ Q A Under this concept only those transactions which can be expressed in terms of money are recorded in the books of accounts. Non-Monetary transactions like efficiency, honesty etc cannot be recorded.

Section - B.

① Q The different accounting concepts are as follows:-
1) Business Entity Concept:- It implies that a business is separate and distinct from the owner. According to this concept business is kept separate from the Proprietors so that the transactions of the business is recorded separately.

2) Money measurement Concepts:- Only those transactions which can be expressed in terms of money are recorded in the books of account.

3) * Accounting Period Concept:- The life of the business is divided into suitable accounting periods. This division is made so as to ascertain the profit or loss of the business.

4) * Going Concern:- It refers to the continuous existence of the business concern. The life of the business does not come to an end with a year.

5) * Dual aspect concept - Every transaction involves two fold aspects - Receiving and giving aspect. An entry being made for receiving amount and similar entries made for a giving a/c.

6) * Matching Concept - The expenses incurred in an accounting period should be matched with revenue recognized in that period.

7) * Cost Concept:- Assets is recorded in the books at the price paid to acquire it and this cost is the basis for all the subsequent accounting for that assets.

8) * Accrual concept.

9) * Realisation concept

10) * Legal aspect concept.

11) * Accounting standards are written policy documents issued by expert accounting body or by Government or other regulatory body covering the aspects of recognition, treatment, measurement, presentation and disclosure of accounting transactions and events in the financial statements.

Section - A

- 02
1. ~~Account~~ According to American Institute of Certified Public Accountants, "Accounting is an art of recording, classifying and summarising in a significant manner & in terms of money transaction & events which are in part least of a financial character & interpreting the results thereof."
 2. A Debit entry increases an asset or expense account. A debit also decreases a liability or equity account.
 4. Under this concept, only those transactions which can be expressed in terms of money are recorded in the books of accounts. Non-monetary transactions like efficiency, honesty etc cannot be recorded.

Section - B

7. The different accounting concepts are as follows
1. Business entity concept - It implies that a business is separate & distinct from the owner. According to this concept business is kept separate from the proprietor so that the transactions of the business is recorded separately.
 2. Money measurement concept - Only those transaction which can be expressed in terms of money are recorded in the books of accounts.

3. Accounting period Concept - The life of the business is divided into suitable accounting period. This division is made to ascertain the profit or loss of the business.
4. Going Concern - It refers to the continuous existence of the Business Concern. The life of the business does not come to an end with a year.
5. Dual aspect Concept - Every transaction involves two fold aspects - Receiving & giving aspect. An entry being made for receiving amount & similar entries made for a giving A/c.
6. matching Concept - The expenses incurred in an accounting period should be matched with revenues recognised. Subsequent accounting for that asset.
7. Cost Concept - Assets is recorded in the book at the price paid to acquire it & this cost is the basis for all the subsequent accounting for that Asset.
8. Accrual Concept - It means that revenues are recognised when they become receivable. Though cash is received or not received and the expenses are recognised when they become payable though cash is paid or not paid.
9. Realisation Concept - This concept states that revenue from any business transaction should be included in the accounting records only when it is realised.
10. legal aspect Concept -

SINDHI COLLEGE
Bridge Course Syllabus
Department of Mathematics
BCA
2023-2024

1. Matrices & Determinants:

3Hrs

Matrices :Definition , Types of matrices & Algebra of matrices.

Determinants :Definition , simple problems . Solving linear equations by Cramer's rule , Adjoint of a matrix & Inverse of a matrix.

2. Functions & Relations, Set Theory :

2 Hrs

Definition of a Function & types of functions , problems on functions, problems on Bijective functions & Inverse of functions.

Definition of Relations , Types of relations and simple problems.

Definition of sets and types of sets. Problems on sets

3. Permutation and Combination :

2Hrs

Definition of permutation, properties and simple problems.

Definition of Combination , properties and simple problems.

4. Graph Theory :

3Hrs

Different forms of graphs and simple problems.
