Introduction to RDBMS,SQL Commands, Interfacing My-SQL with python and CRUD programs

Training methodology

It's combination of theoretical and practical sessions. We have introduced to a concept and used hands-on session to further strengthen their understanding of the concept.

Following assessment methodology were used to evaluate the students

1. Pre-assessment test – Random questions
2. Attendance and attentiveness in the class
3. Completion of hands-on session
4. Completion of assignments
5. Feedback
6. Post-assessment test – Written test

We have conducted a pre-assessment and post assessment test. Hard copy of feedback and post assessment test is handed over to the training co-ordinator.

Lab setup

Anaconda distribution of Python has been installed on the laptop systems of the students. Students were provided good hands-on exposure.

Analysis of the student's participation during training

About 80 % of the students took the training seriously and interacted well with the trainer. They have completed the given assignments. They have made good use of the training facility provided by the college.

PROFILE of SINDHI COLLEGE

About Sindhi College

Sindhi College, Bengaluru was established in the year 2002, under the aegis of Sindhi Seva Samiti, a philanthropic organisation managed by the Sindhis with, "Service to human kind" as their motto and was inaugurated by Sri.L.K.ADVANI the then Deputy Prime Minister of India and Sri.S.M.Krishna the then Chief Minister of Karnataka.

Since then, the growth of the Institution has been phenomenal and is recognised as one of the premier institutions not only in the city of Bengaluru but also among the other states of India.

The college is permanently affiliated to Bengaluru Central University.

It is a self-financing, co-education college imparting quality education in the streams of Science and Commerce, offering UG and PG courses. The objective of the institution is to create an indelible mark on the canvas of higher education with a vision to expand the horizons in the realm of teaching-learning, wherein young talented students are groomed and transformed into thinkers, researchers and entrepreneurs seeking opportunities in the industry or academics.

The institution is making all out efforts to build confidence among the students to excel in academics, professional ventures and personal lives.

The college is endowed with state-of-the-art infrastructure.

The college has a team of highly qualified, dedicated and multi - faceted faculty who guide the students to become academically competent, professionally superior, industrious and socially responsible. We are very proud to place on record that the college has made commendable contribution in shaping careers of hundreds of its students and has played a significant role in the holistic development of them, who in turn have brought laurels to the institution by their high level of performance, conduct and character.

Dear Maam,

Greetings from TIME,

We wish to introduce ourselves as one of the leading coaching institutes for entrance training in India. **T.I.M.E.**, an acronym for Triumphant Institute of Management Education was started in the year 1992 by a couple of management graduates from IIM Ahmedabad; Mr. P Viswanath (BTECH – IIT Chennai and PGDBA – IIM A) and Mr. Manek Daruvala (B.Sc, PGDBA – IIM A). **T.I.M.E.** today has one of the largest networks among all similar coaching institutes in the country. We are headquartered at Hyderabad and today we run 240 offices in 114 cities in the country (a detailed list of our offices is available at www.time4education.com). Today we train students for different entrance examinations like the CAT, GRE, TOEFL, GMAT, GMAT, GRE Campus recruitment training, IIT – JEE, AIEEE etc.

As discussed we will be conducting CRT Orientation program on 13th Sep 2019 at your esteemed college for 3rd year students of UG courses.

Thanks & Regards,

Praveen Rao

Name of the Resource Person	Dr. Sumithra R
Designation	Associate Professor, Co-ordinator PG Studies, Head Research Centre,Department of Mathematics Government Science College, Autonomous Bangalore
Class	All B.Sc Students
Total No. of Students	40
Programme In charge	Prof. Roopa Rajashekhar Anagod HOD, Department of Mathematics
Collaboration :	------
Objective :	• To learn model making • To construct convex polyhedral models • To acquire knowledge symmetry elements

Issues / Key factors addressed :	• Applications of polyhedra models • Skill development in making models • Symmetry elements in crystallography.
Impact/ Outcome :	• Students developed the art of making polyhedra models • Learnt diverse applications of convex polyhedra models in the areas of computer science, chemistry etc

Workshop report

From ancient times polyhedral which are closed surfaces with polygons as sides, have attracted the attention of mathematicians, particularly with regular polygons as sides (sides have same length and angles are equal). A uniform polyhedron 5 one whose faces are regular and vertices are alike having similar arrangements of polygons at each vertex. In a convex polyhedron, a line segment any two points lies entirely on it or inside it.

Many of polyhedra are highly symmetrical and will be useful to understand concept of symmetrylike symmetry or rotational symmetry. Polyhedrons appear in nature particularly platonic solids and crystals. Making models will help the students to have clear understanding of the concept of polyhedra and in particular convex polyhedra, symmetry elements and their occurrence in nature with this view mind.

Department of Mathematics organized workshop on "Construction of convex polyhedra models" on 24th September 2019. Workshop was organized to enhance the skill development of students in model making and to inculcate the practical exposure, recent development and application.

Objectives

- To encourage the application technique using model making and creative thinking
- To find solutions for various application problems that we face in our day to day life. Students made different types of 3 dimensional flat polygonal faces with straight edges and sharp corners or vertices, like regular Polyhedra, Tetrahedron Isohedral (same faces), Isogonal (same angles), Isotoxal (same sides), Dual Polyhedrons: Cube (Hexahedron) & Octohedron.

Applications of models are Networking, Designing of Automobiles, Tile Industry, Topological spaces, Architecture, Chemistry etc

In nature also these models are also available for example Pyrites, Copper, Carbon 60 Football.

The workshop was inguarated by Vice-Principal Prof. Asha N, HOD of Mathematics Prof. Roopa R A, Resource person was Dr. R Sumithra , Co- ordinator PG studies, Head Research Centre Department of Mathematics, Government Science College (Autonomous), Bengaluru.

The workshop was attended by all B.Sc. studentscovering a strength of 45. The session was very interesting and the students derived a good knowledge about convex polyhedra model and the application. The session concluded with valedictory function of Dr. Srikanta, Principal delivered the valedictory adderess and Prof. Asha .N, Vice Principal attended the certificates were distributed to all the participants.

Workshop Report

BA (Psychology)

Title of the workshop	**: Psychology and its applications in health care setting (Psycho-Oncology)**
Course	**: B.A (Psychology)**
Dates of workshop	**: 4, 5, 11, 12 & 17 September 2019**
Timings	**: 12:00 – 2:00 P.M**
Total Hours	**: 10**
Total Students	**: 20 (1st sem BA – 13; 3rd sem BA – 07)**
Venue	**: Seminar Hall, Sindhi College, Bangalore**

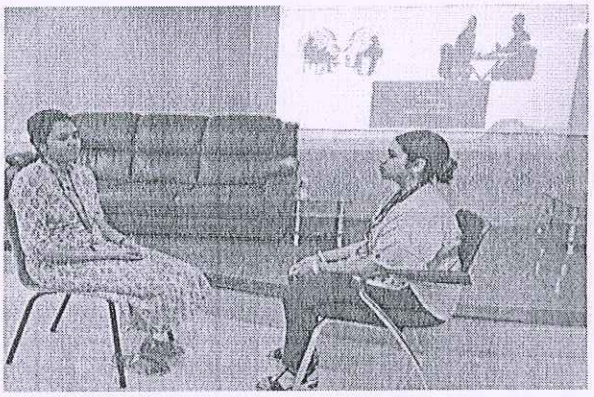
Overview:

Aiming to provide a fore-vision into Psychology and its applications in various health care setting, the department of BA (Psychology) organized a 10- hour workshop on 4th, 5th, 11th, 12th, and 17th September 2019 respectively. The workshop was conducted by Ms. Rajeshwari A, a psychologist/trainer who has ample experience training several corporates, colleges and health care settings and is also actively working with cancer patients and families for the last 3 years.

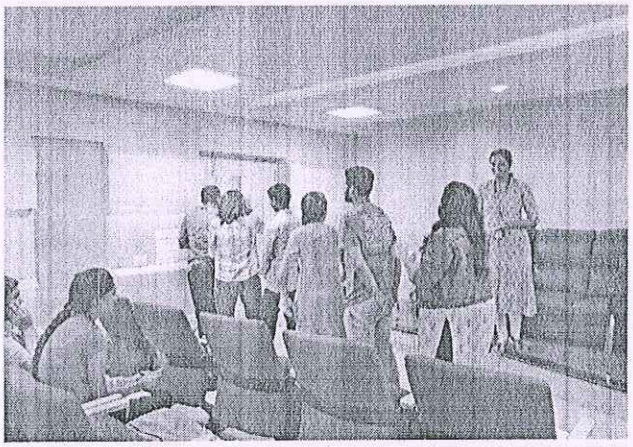
The sole purpose of this workshop was to equip students with basic counselling skills so as to build a strong foundation for their personal and professional life and to also provide an insight on Cancer, Tobacco and Psycho-Oncology a super-speciality subject which is currently one of the most budding professions in India.

As the objectives stated above, the workshop took its course to intensely prepare students on how to approach clients to guide and counsel.

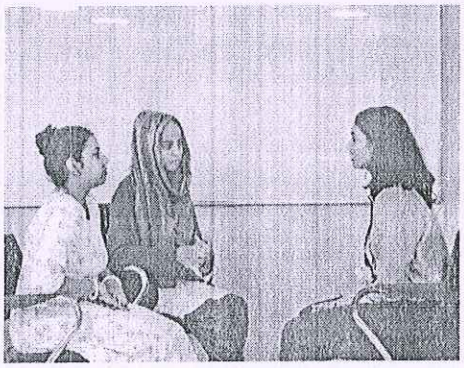
Tremendous inflow of knowledge on the etiquettes and mannerisms of counseling were poured into the sessions and consequently wiped away all the misconceptions and stereotypes that students had regarding counseling and psychology.



The trainer made the sessions very active by having real life examples and conducting role plays. Various techniques of counseling were explored and skills that are required for counseling were inculcated into students using various activities.



The sessions progressed into much deeper understanding of the skills of counseling, various principles and theories were explained dramatically using case studies that caught the attention of students right away.



Students were given practice on how to approach clients and to deal with various issues that bother most people. They learnt to effectively utilize all the techniques that were taught to them and this gave them a sense of responsibility to gain more knowledge on the subject matter.

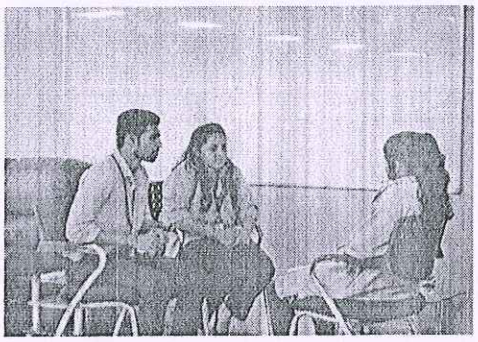
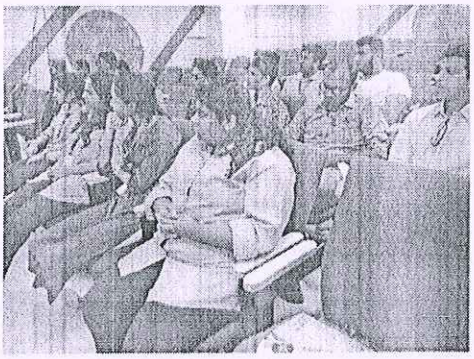
The trainer introduced activities that were not only fun but also made them think innovatively on how to reduce stress and they came up with many do-able ideas that were further discussed through ought the session.

Students were not only trained to manage stress that occur on a day-to-day basis but they were put in a stressful position through an activity that gave them a clue as to how stress could be bad and thus a professional therapy becomes vital.



Importance of a personal therapy was discussed, as much as psychologists handle other people's emotions, their own emotions need to be cared too.

Psycho-Oncology is a field that deals with patients who have cancer and are dealing with emotional stress due to the disease.



The trainer began the session with a case study that engrossed the students to know more about this field, adding to this topic the trainer also lectured about palliative and hospice care, and trained the students on how to strategically utilize the skills to assess distress using the *NCCN Distress Thermometer* and counsel end of life patients.

Finally, moving towards the end of the workshop, the talk on cancer awareness and tobacco cessation gave the students an insight into the prevalence, diagnosis, types, causes and symptoms of Cancer. And students were made aware on many *psychological interventions* that were aimed to cease the usage of tobacco among people.

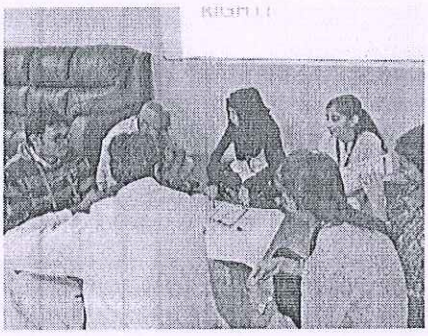
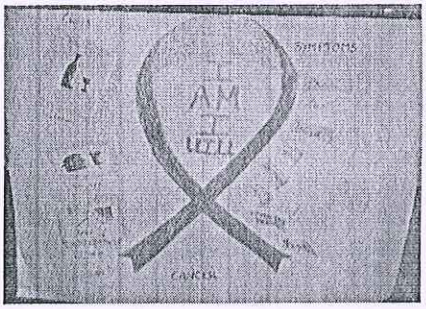
The students were then divided into groups and the themes were given to them to display their creative skills into making a collage on Cancer Awareness and Effects of Tobacco.

The students were engrossed into the activity and came out with a creative collage that had a very effective message in a short time. The students also took an initiative to send a video message to commemorate the World Hospice Day, pledging to spread awareness of cancer in the surrounding.





Feedbacks:

"The Psycho-Oncology workshop involved in a deep learning of all the aspects of counseling and an in-depth perception on the field. The trainer gave us tremendous knowledge in counseling techniques, etiquettes, methodologies, principle concepts and mannerisms in how to approach, counsel and guide the client/subject. It was filled with activities which had a deeper meaning and a lesson that taught us all about life and its challenges. The detailed talk on the effects, causes, symptoms and diagnosis of Cancer helped the students to understand the psychological effects on the patient. This was an eye opener for me as I learnt a lot about people, life and the views that they have which improved my adaptability to deal with people without judging them. The group activities were fun-filled, enriching and blissful experience that was loaded with information. Looking forward for more workshops like these."

Jeswin Johnson, 1st Semester BA

"The 10 hours of workshop has been a wonderful journey. I learnt a lot about counselling and ways to present it visually while counselling a person. I was thoroughly inspired by the way the entire workshop was taught through presentation and many activities. Rajeshwari ma'am is an excellent educator. I found it really insightful and interesting learning about psycho-oncology with an example of case study. The most interesting part of the workshop was the demo representation of counselling. We also made an attempt to spread awareness about tobacco and cancer by representing it through collage."

Pragathi G 3rd Semester BA

In conclusion, the workshop was a successful event having active participation from all the students who benefited much from the workshop. The thoughtful activities, group discussions, lectures, demo presentations of counseling, and role plays made learning intriguing.
