Awareness programe on saving Cauvery

Objective: To display integrity for a noble cause

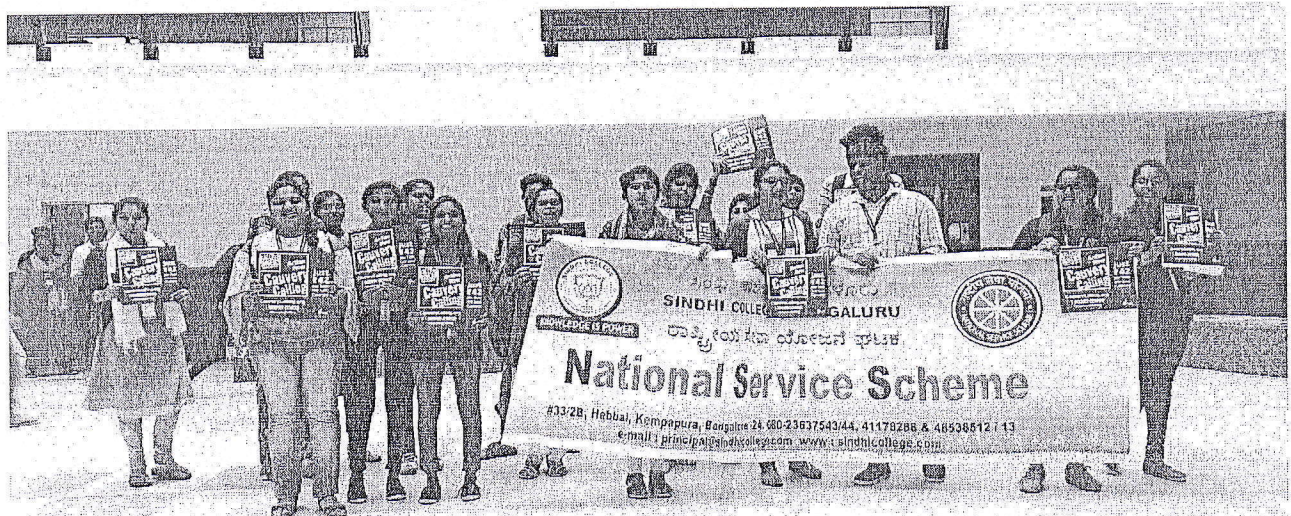

No.of Volunteers: Boys-35 Girls-25

On 8TH September 2019 Sindhi College NSS volunteers attended “cauvery calling” a flagship programme organized by the **ISHA FOUATION** led by **Sadhguru**. The main objective of the event was to give awareness to the people about saving the Cauvery for the future. A total of 40 volunteers attended the programme lead by the **NSS Programme Officer Prof. M.A.Vaidyesh**. The event started at 5:00pm and finished at 8:00 pm. The gathering was also addressed by **the Chief Minister of the State B.S.Yediyurappa**. Cauvery calling event has triggered the emotions of the people of Karnataka and Tamil Nadu to save “**Jeevanadi** Cauvery”. On 7th September 2019, college NSS volunteers created awareness about Mega event scheduled for 8th September 2019. 52 volunteers stood in front of the college holding placards of Cauvery Calling. People from the local community appreciated the efforts of College NSS. Eventually volunteers involved in a walkathon covering a distance of 3 km around college neighbourhood.

On the day of the event his holiness **Sadhguru Jaggi Vasudeva**, Founder of **ISHA FOUNDATION** addressed huge gathering of more than **15,000 people assembled at Tripura vasini** convention hall, palace ground, Bengaluru. During his address he emphasized on the need to plant **242 crore sapling of trees** in Cauvery basin. He urged the youth representing NSS units of different colleges affiliated to bengaluru universities to create awareness among the public. **Hon. CM. Sri. B.S. Yediyurappa** in his address reiterated the need to join hands for this noble cause. He assured fullest support by providing subsidies to the farmers going for Agro forestry further he promised to donate 2 crore saplings of different varieties for this cause through the state forest department. **Sri. C.T. Ravi**, honorable member state legislative assembly expressed his emotional connection with river Cauvery, he urged people who have consumed Cauvery river water to join their hands to revive the river under threat. **Sri. P.C. Mohan**, member legislative assembly, presides over the event. **Dr. Kiran majumdar shaw**, chairperson Biocon, addressed the gathering in **kannada** a **sentiments of kannadigas** was held in the right spirit throughout her speech in the auditorium. **Dr. Prathima Devi**, Rajmata Mysore palace also pledged to give fullest support for this noble cause.

Sentimental attachment with Cauvery triggered the emotions of all

Report on Gandhi Jayanti

No of participants:590

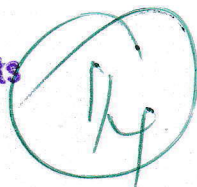

Objectives:

- To create awareness among public about cleanliness.
- To inculcate the culture of physical fitness and also pollution free environment.

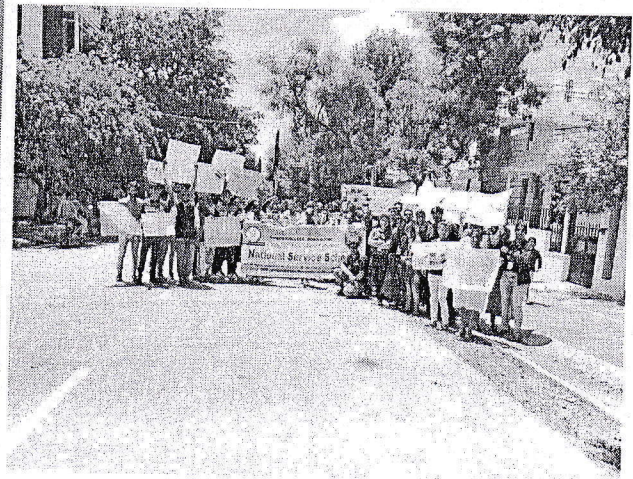

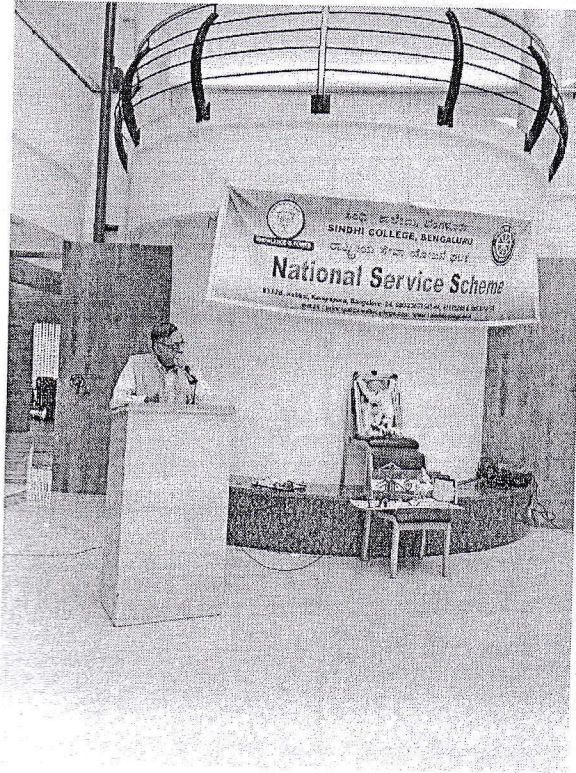

Mahatma Gandhi once said that "Cleanliness is next to Godliness" On 2nd October 2019 Sindhi college organised "Fit India plogging run" a total number of 80 NSS volunteers and 31 NCC cadets and other students voluntarily participated in the event. The event started at 9:30Am with an invocation song by NSS volunteers.

Later Dr.B.S.Srikanta, Principal, Sindhi college, Prof.Asha.N, vice principal, Sindhi college, Prof. M.A.Vaidyesh, NSS Programme officer, Sindhi college, Lt. Shankar.V.P, NCC Officer, Sindhi college and other staff members gave a floral tribute to Mahatma Gandhi's photo. Then Prof.M.A.Vaidyesh Welcomed the gathering and educated the students about "Plogging Run".

Dr.B.S.Srikanta, Principal addressed the gathering with Gandhi Values and Great thoughts of Mahatma Gandhi, he also insisted the students to follow Gandhian Principals, he also inspired the students from some of stories of Mahatma Gandhi. Later all the NSS volunteers, NCC Cadets and other students started the plogging events and covered an approximately 2 km of distance around Kempapura and coffee board Layout picking up all the plastics and paper litters on the streets covered and reached college at 12 finishing up the event after distributing refreshments to all the students.

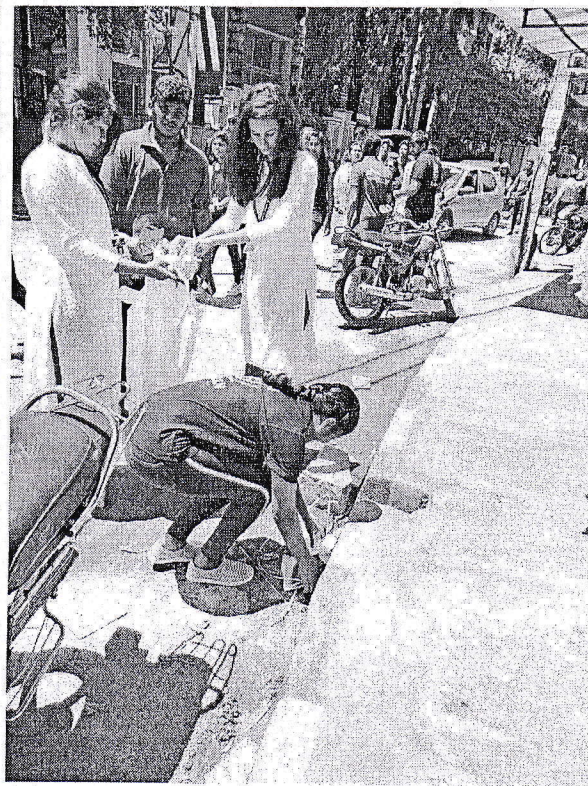

Photos of the event

Principal Addressing the staff and students

Report on Eco-Friendly Diwali Rally

Objective:

- To create the awareness among the people in the society about the ill effects of bursting crackers.
- To spread the true message of deepavali.
- To prevent the environment pollution (air and noise) that is likely to be caused due to crackers.
- To sensitise the people about the economic waste.

Date of the event: 26/10/19

No of volunteers: 60

On 26th October 2019 Sindhi college, NSS unit organised an awareness programme as “Eco-friendly Deepawali Rally”. The main objective of this rally was to inform the students and people living in the neighbourhood about the financial and ecological impact of bursting crackers. Bursting crackers and fire-works not only cause environment pollution but also make a dent in the economic prosperity of the people.

A total of 60 NSS volunteers gathered with around 15 NCC cadets and 30 SGC members of the college and 30 Faculty members walked through the streets of kempapura holding placards and shouting slogans to create awareness.

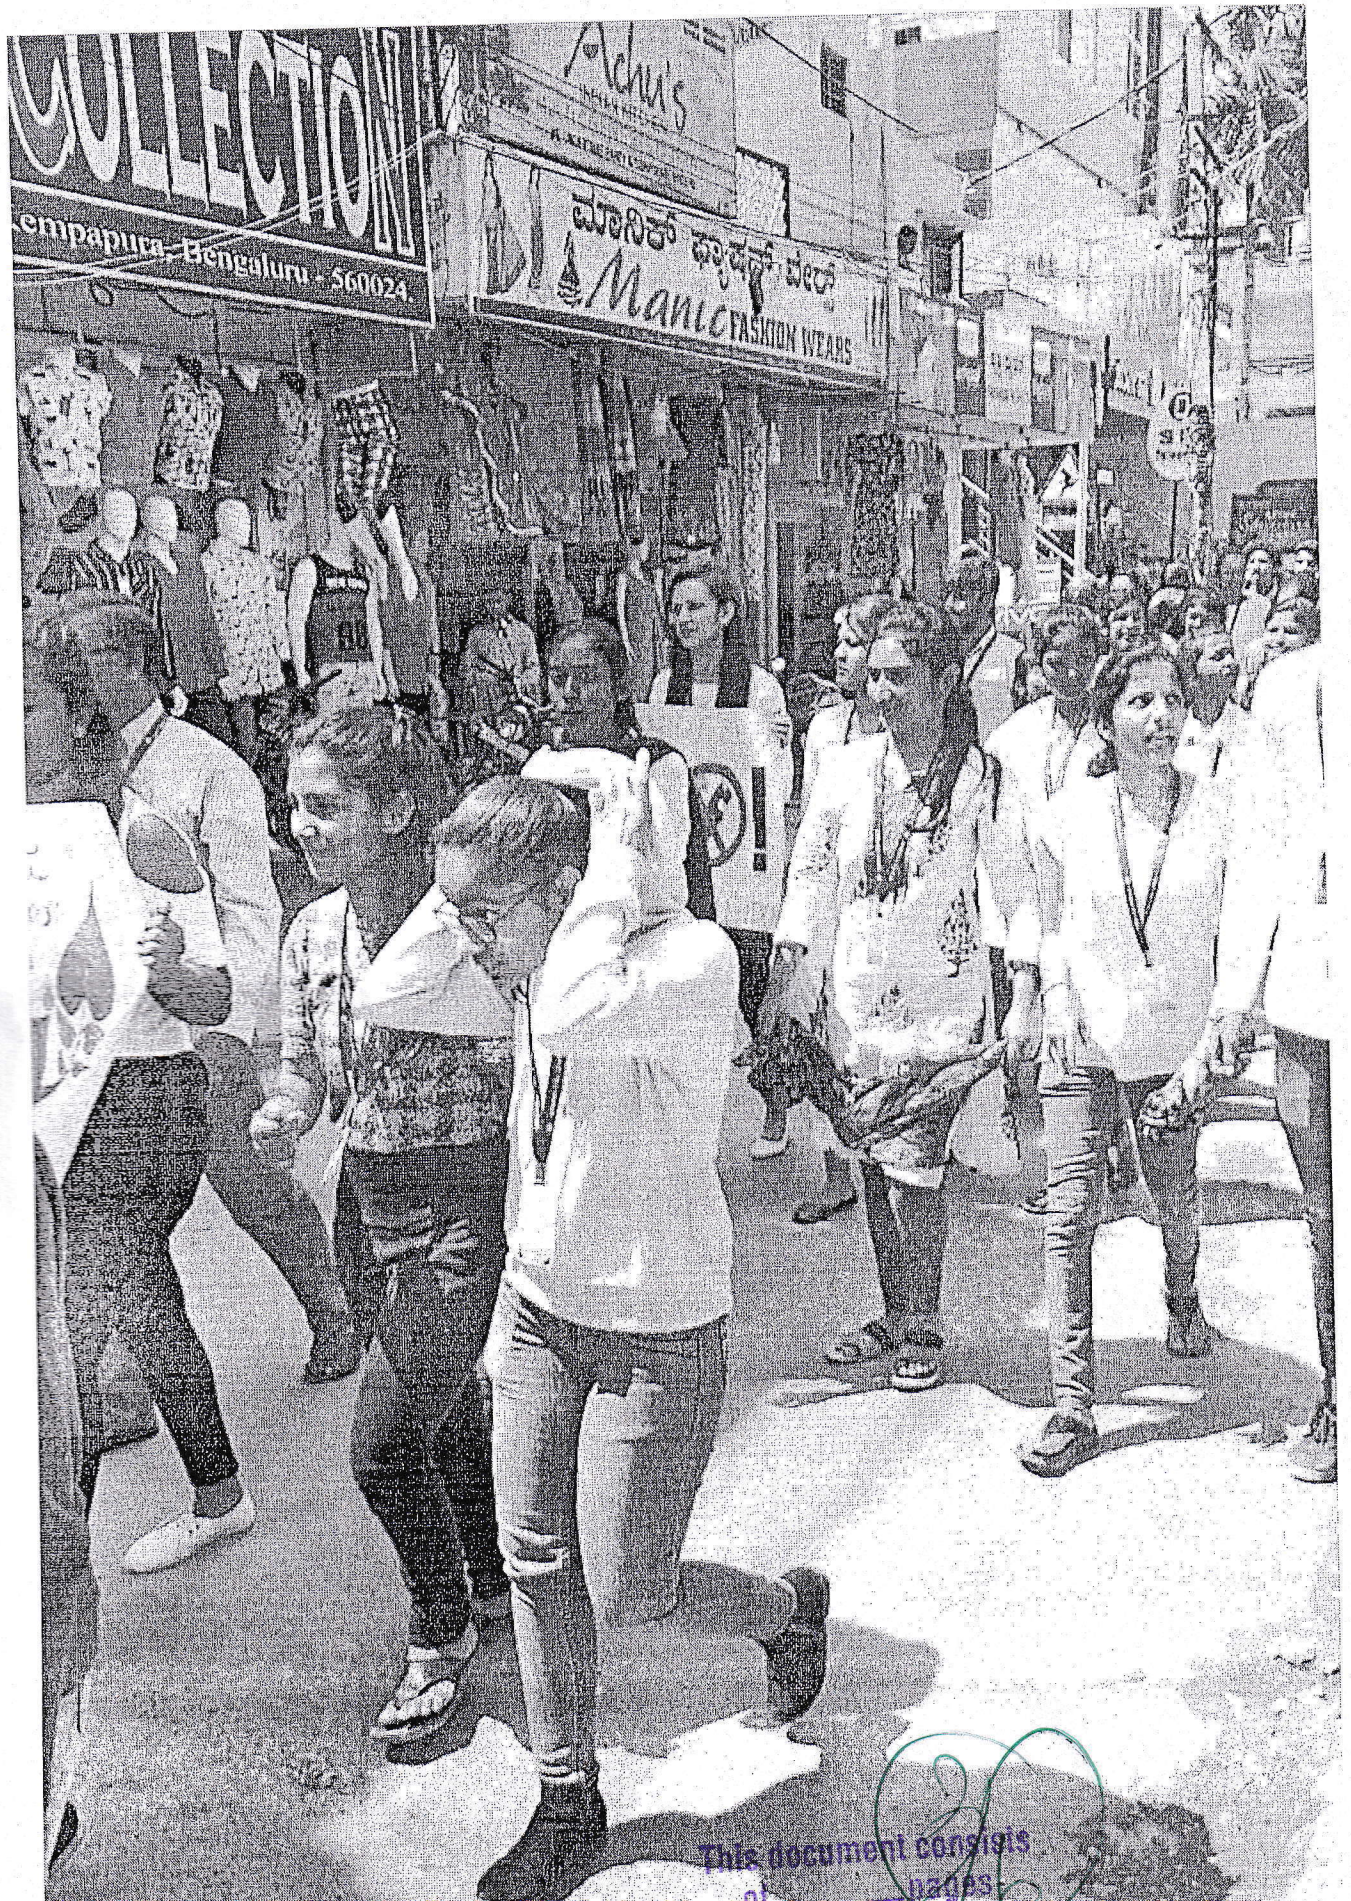

Dr.kariyanna, HOD-kannada, and all NSS advisory committee members led this group of students. Police officers from Amrathalli police station accompanied students for safety reasons.

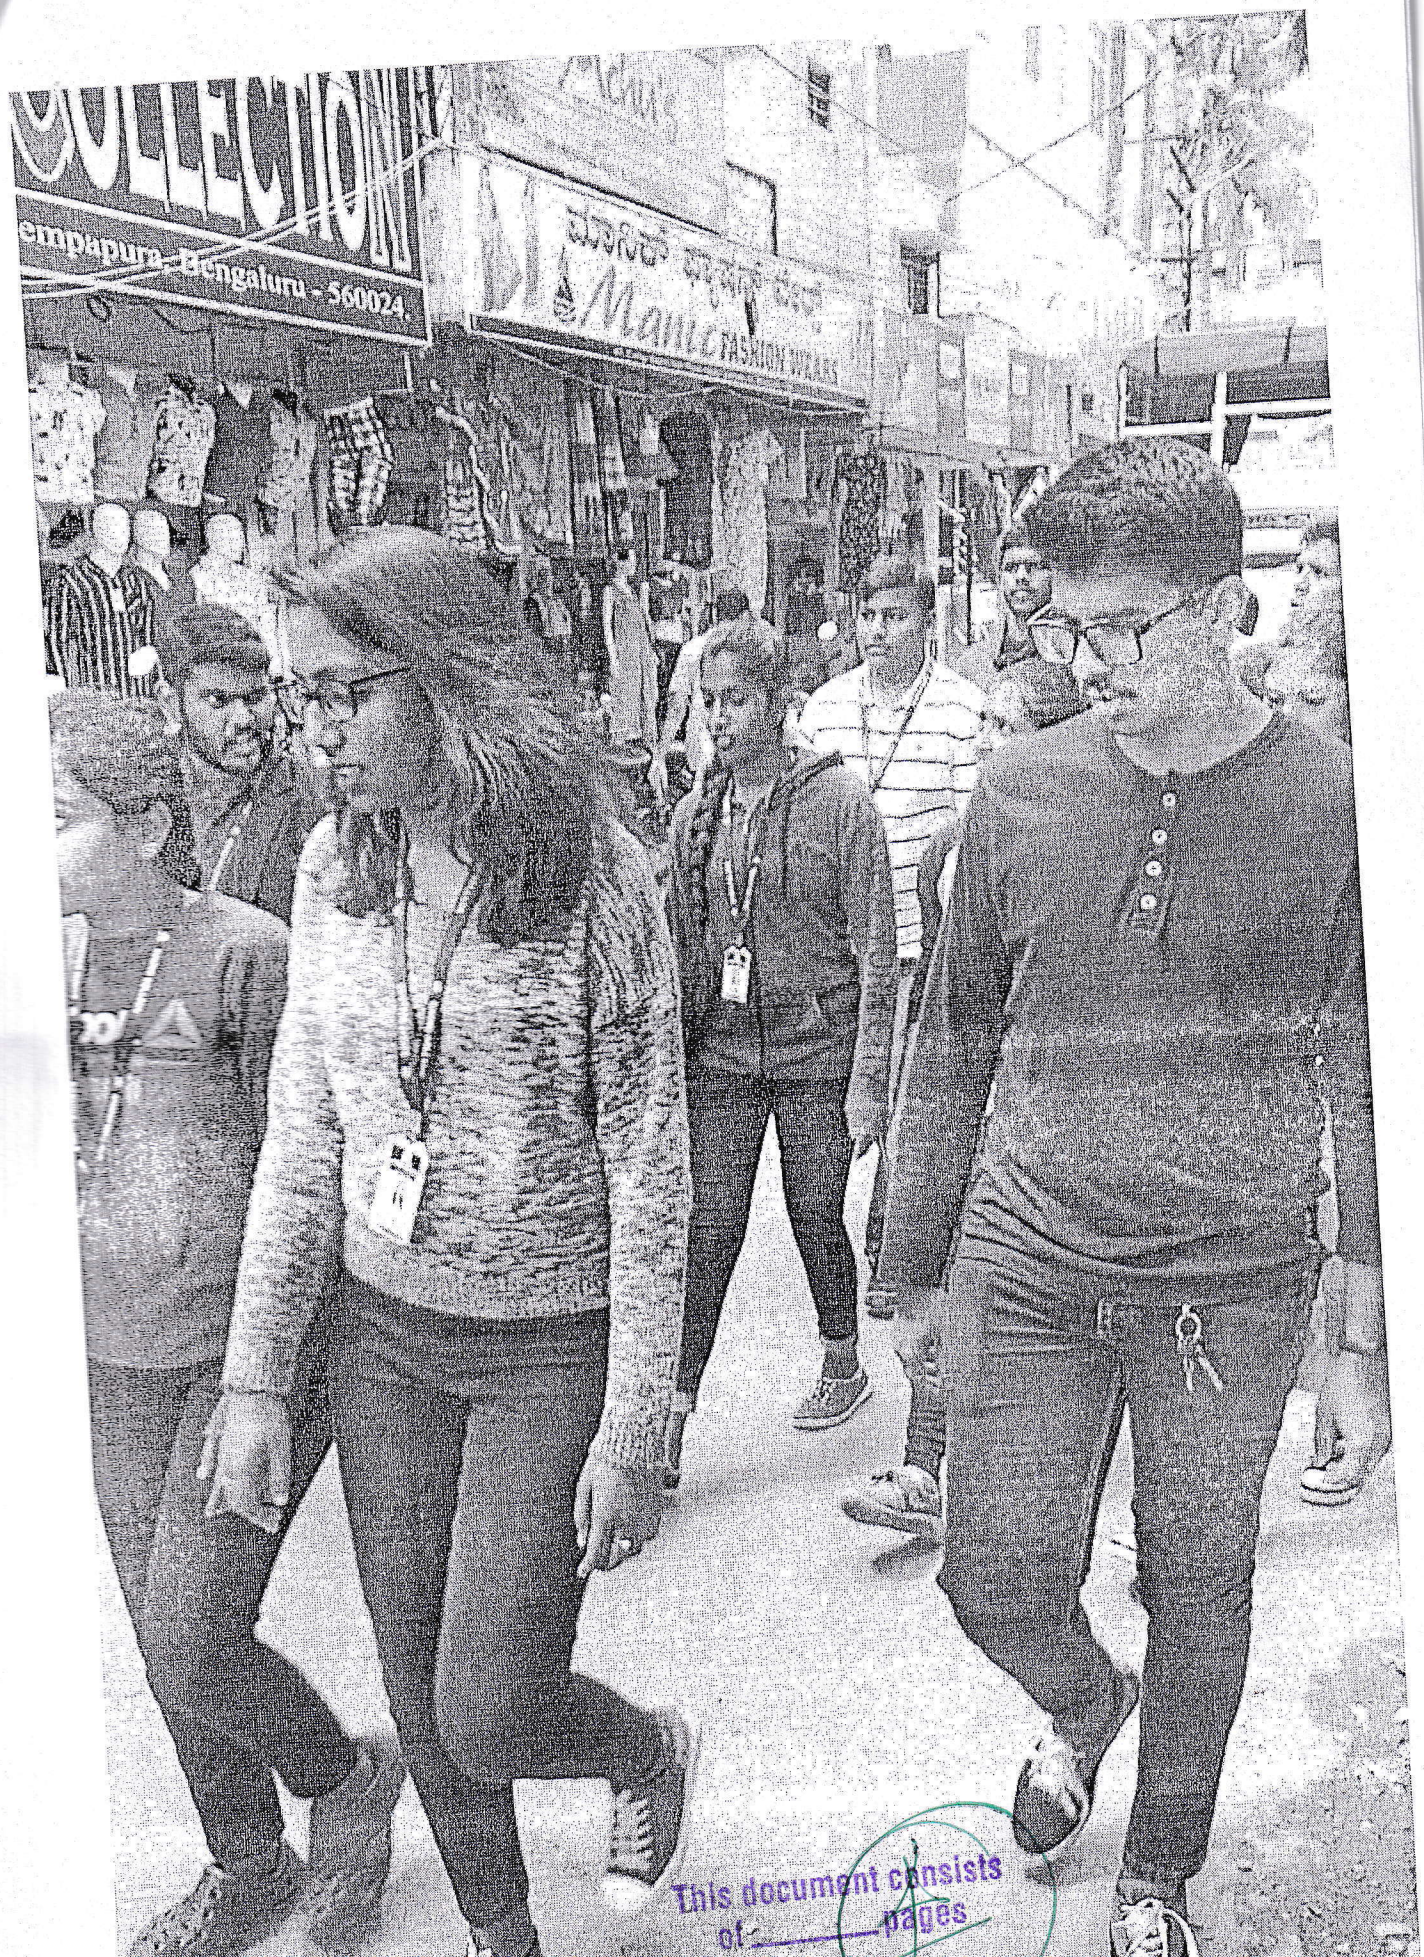

Later Principal Dr. B.S.Srikanta, appreciated the volunteers for the efforts of volunteers for creatively preparing the publicity materials and their efforts to create better society. Public responded sensibly to the rally and appreciated this initiative.

Volunteers, Programme officer and the NSS advisory committee members took photographs after the successful completion of the event. Programme officer thanked the Principal and staff members for joining their hands to the event.

ECO-FRIENDLY DIWALI AWARENESS PROGRAM

OBJECTIVE

Create a sense of awareness and attention towards nature for reducing pollutions

On Monday pollution free diwali celebration awareness program took place in Kempapura, Hebbal, Bangalore. Where a group of **80 students** rallied around Kempapura with slogans and suggesting the people not to burst crackers instead light earthen lamps so that **Air and noise pollution could be reduced.**

**Court barred manufacturers from using five specified chemicals
'in any form whatsoever' to prevent air pollution**

The Supreme Court ban on the use of antimony, lithium, mercury, arsenic and lead in the manufacture of firecrackers to prevent air pollution has turned the focus on what chemicals are used to produce spectacular visual effects and noise.

ANNUAL SPECIAL CAMP REPORT

2016-17

VENUE OF THE CAMP: DASE GOWDANA

DODDI, KAILANCHA HOBLI,

RAMANAGAR DISTRICT.

FROM 10/12/16 TO 16/12/16.

DAY-2

Wake up call was set up at 5am. Volunteers finished ablutions and assembled for flag hosting.

The flag hoisting was done by Rabindranath Tagore Team at 6:30 am.

Prashanth led the contingent. Volunteers were directed to the near-by hill. Volunteers and committee members reached the hill after a walk of 2kms.

Aerobics, surya namsakara and pranayama were taught by Sri. Devaraju and the Program Officer.

As the contingents returned back to the camp base, breakfast was served and except Rabindranath Tagore and APJ Abdul Kalam team others left for near-by tank to remove the silt and debris and deepen the dried open tank.

The Shramadan was carried out till 2:30 p.m.

Volunteers removed the dry weeds, planktons and also removed the soil up to 2 feet, to increase the storage

capacity of the water. It measured approximately 60 ft. by 40 ft.

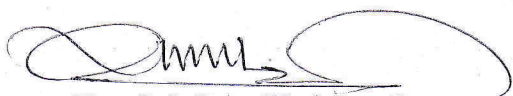

24 volunteers of the present batch and 12 volunteers of college alumni who were part of last year NSS camp rendered service.

Rabindranath Tagore team was in-charge of cooking, cleaning and serving food. Volunteers took pride in rendering service to the community under scorching sun.

Villagers served tender coconuts to beat the heat. Lunch was served at 3:00p.m and took most needed rest till 4:00pm.

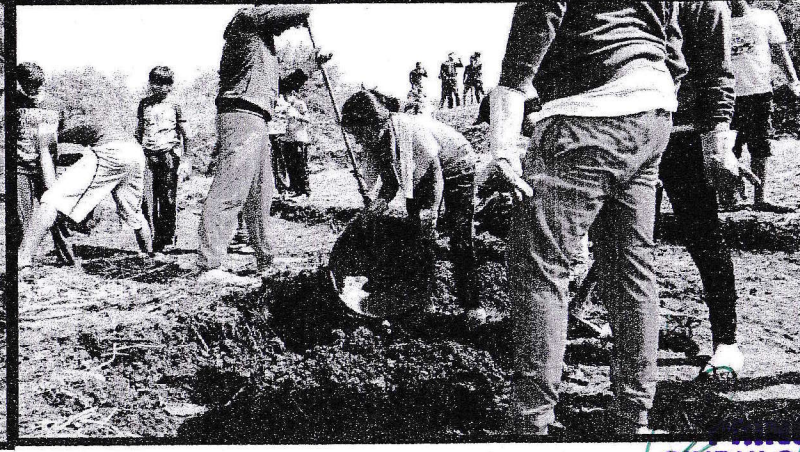

Cultural events began at 6:00p.m. Rashmi and her team presented skit, short film on good and healthy food, also presented slides on the life and achievements of Dr. APJ Kalam and also group dance.

Village elders Sri. Dore Swamy, Sri. Rama Krishne Gowda, Sri. Dase Gowda and others presided over the formal function and some of them shared on the dais their experiences with NSS Volunteers. In their speech, the villagers appreciated the good work done by the volunteers.

DAY-3

The day began with flag hosting and Prof.Nandini. and Sri. Srinivas led volunteers to the nearby hillock. Yoga and pranayama were practiced and Program officer gave the information about the benefits of yoga and pranayama.

APJ Abdul Kalam team was involved in preparing breakfast and Swami Vivekananda team was in charge of cultural activities. After breakfast other teams left for shrama daan. Forest guard and Forest officer took one team to the nearby forest to make 3 pits of 5ft by 7ft. water collected in such pits will serve as source of water to wild animals. Another team went to Muneshwara temple whose construction was nearing its completion. This team cleaned the premises of the temple using cleaning acid, brush, broom stick and putty blades to remove cement and concrete deposited on window grills. The temple was made ready for painting.

Both the teams returned back to camp base and had their lunch. Principal Dr. B.S.Srikanta, Additional Vice

The day began with flag hosting and Prof.Nandini. and Sri. Srinivas led volunteers to the nearby hillock. Yoga and pranayama were practiced and Program officer gave the information about the benefits of yoga and pranayama.

APJ Abdul Kalam team was involved in preparing breakfast and Swami Vivekananda team was in charge of cultural activities. After breakfast other teams left for shrama daan. Forest guard and Forest officer took one team to the nearby forest to make 3 pits of 5ft by 7ft. water collected in such pits will serve as source of water to wild animals. This team cleaned the premises of the temple using cleaning acid, brush, broom stick and putty blades to remove cement and concrete deposited on window grills. The temple was made ready for painting.

Both the teams returned back to camp base and had their lunch. Principal Dr. B.S.Srikanta, Additional Vice Principal, N. Asha, Managing Staff members, Office Crew, accounts department and sub staff visited the

village and received a warm welcome and special hospitality was extended to all visitors.

As it was Hanuman Jayanthi, special pooja was performed in the temple. Parasadam was prepared and served to one and all.

By evening, College Vice Principal, Dr.S.Anil Kumar arrived and expressed satisfaction over the quality and quantum of work done.

Evening cultural program started at 6pm as scheduled. Circle inspector Sri Ramesh and Sub inspector Sri Mahadeva Swamy were the chief guest and the guest of honor respectively. Village head Sri. Ramakrishna Gowda also participated and head master Sri.Chikkundiah presided over the function.

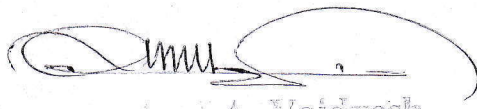

Sri Ramesh, CI in his address discussed various means to be undertaken to reduce the crime rate under the banner "Aparadha thade maasa". Child marriage obligation, eve teasing, wild animal poaching, rape and other crimes and their consequences were discussed. He urged the villages stay away from criminal activities and conduct themselves in a manner worth emulating by others. He also gave advice to the youth of the village to appear for competitive exams and get qualified to serve the nation through government service. He threw light on

cyber-crimes, effects of demonetization and cautioned people to protect their interests.

SI Mahadevaswamy also concurred with the views expressed by CI Ramesh .

Cultural committee enthralled the audience with their diverse cultural programs. It started raining heavily. People witnessing the programmed stay glued to their chairs till the end despite rain. The presence and active involvement of village kids added colour to the entire programme.

As the program was concluded, food was served in the two rooms where boys and girls were sheltered.

DAY-1

Volunteers reached arrived near the college by 8 am and then left for Dasegowdana doddi. The volunteers reached the place with the teachers at 10:30 am. Team Bhagat Singh led by Chidanand.G.Yadav was in charge of cleaning utensils, cutting vegetables, cleaning kitchen, preparing & serving food and again cleaning utensils and keeping it ready for next day.

Rabindranath Tagore team headed by Shalini.R was given the responsibility of stage arrangements, setting up lights and sound, lining up cultural events and slides/video presentation, escorting guests and distribution of brochures procuring saplings for inauguration etc.

Other three teams cleaned the school and temple premises as a part of shramadaan. Lunch was served at 2pm. Volunteers took rest after lunch and the cultural programs were conducted from 6pm to 8pm. Head master Chikkundaiah presided over the inaugural function. Dr.B.S.Srikanta, Principal, Vice Principal S.Anil Kumar and Add.Vice Principal Prof. N. Asha were also present. The dignitaries planted saplings in the school premises to mark the occasion.

Principal in his address stressed on the need for community service to develop a sense of social responsibility. He got nostalgic remembering his student days, a volunteer during 1972-74. VP and AVP wished good luck to all the volunteers.

Cultural activities were performed by Rabindranath Tagore team. Entire village crowd had witnessed the cultural programs. One of the members presented slides depicting literary achievements and works of Rabindranath Tagore. Videos were shown to create awareness about say "NO TO TOBACCO" and "NO TO CHILD MARRIAGE".

Dinner was served to guests at 8:30 PM. After dinner, review meeting was held where the volunteers shared their experiences of the day.

ECO CLUB

OBJECTIVES

1. To create awareness of biodiversity conservation and local environmental issues
2. To create a 'clean and green consciousness' among students through various innovative methods.
3. To involve Eco Club students in open-orientation programmes and environment related workshops.
4. To motivate the students to keep their surroundings green and clean
5. To motivate students to imbibe habits and life style for minimum waste generation, source separation of waste and disposing the waste to the nearest storage point.
6. To sensitize the students to minimize the use of plastic bags and other related issues.
7. To organize tree plantation programmes and various awareness programmes
8. To promote general environmental awareness and awareness about the importance of saving global environment.
9. To create environmental awareness among the future generations and imbibe environmental values among the future entrepreneurs and managers.

Report on Slogan writing Event

Slogan writing event by students to create awareness about protecting our Mother Earth was conducted on 18/2/20. Students from II Semester BBA participated in the event.

Making students write slogans that are meaningful, eye catching and fresh can attract them and make them aware about issues related to Earth and Environment. Writing slogans can encourage students to take care of the planet and maintain nature's balance by bringing behavioural changes. It also spreads awareness among students about the declining condition of the earth. In this regard a slogan writing event was conducted and the students came up with very interesting slogans and read it out in class. The following slogans were put forth by the students

“Go Green to make Globe clean”

“Nurture Nature, Save Future”

“Save our Planet, Save Ourselves”

“Think Green, Keep It Clean”

“We're the green team, not the mean team.”

“Ignore it and it will go away”

“It's not an investment if it's destroying the planet”

Help save the planet.

I love the earth.

If you destroy the Earth, you destroy the chance of life.

If you want a happy life, Save Earth.

If you want the existence of life, Save Earth..etc

The activity created awareness among the students and enabled to drive home the point that saving our mother Earth should be the utmost concern

Wealth out of waste activity

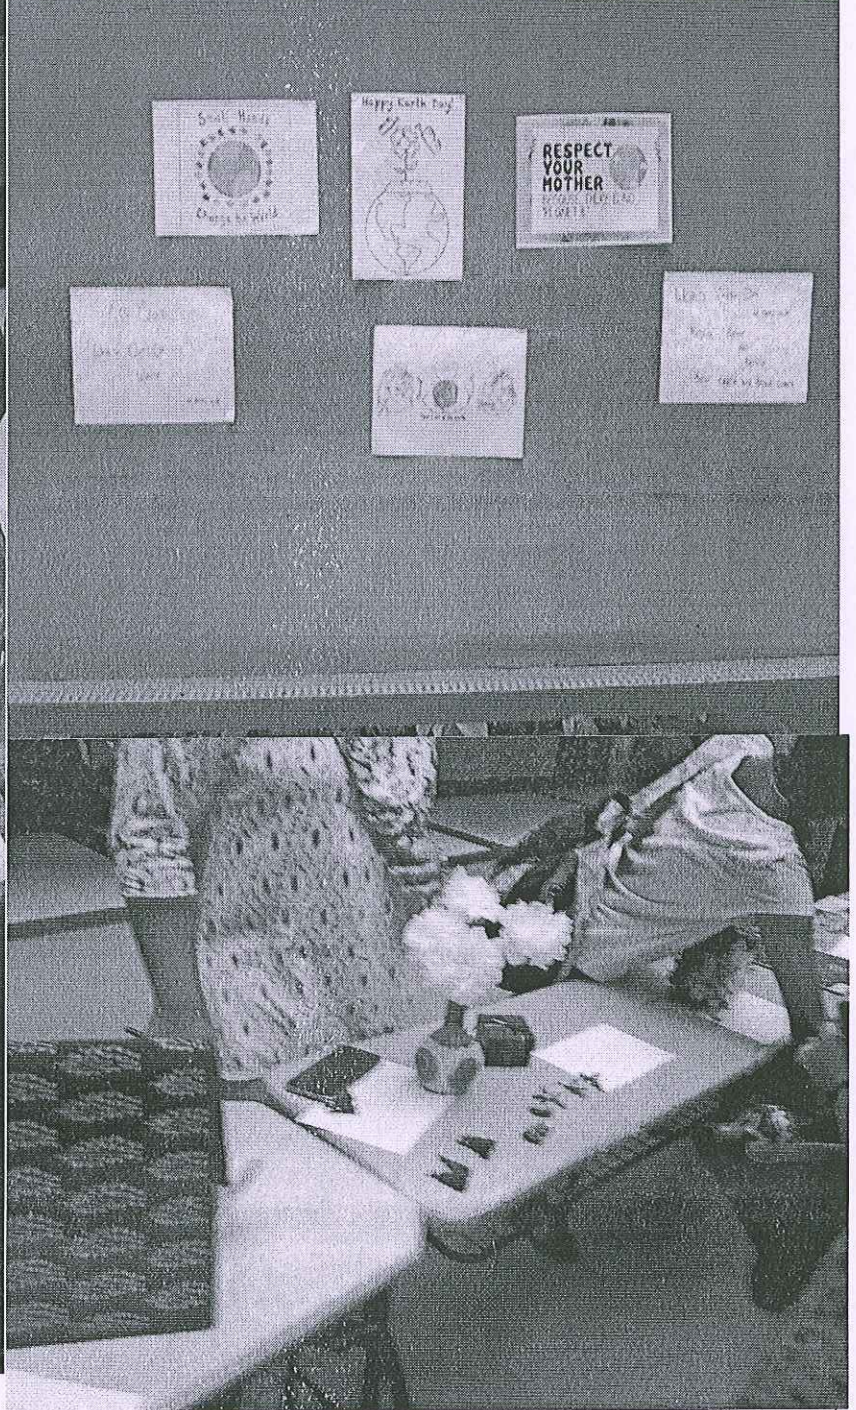

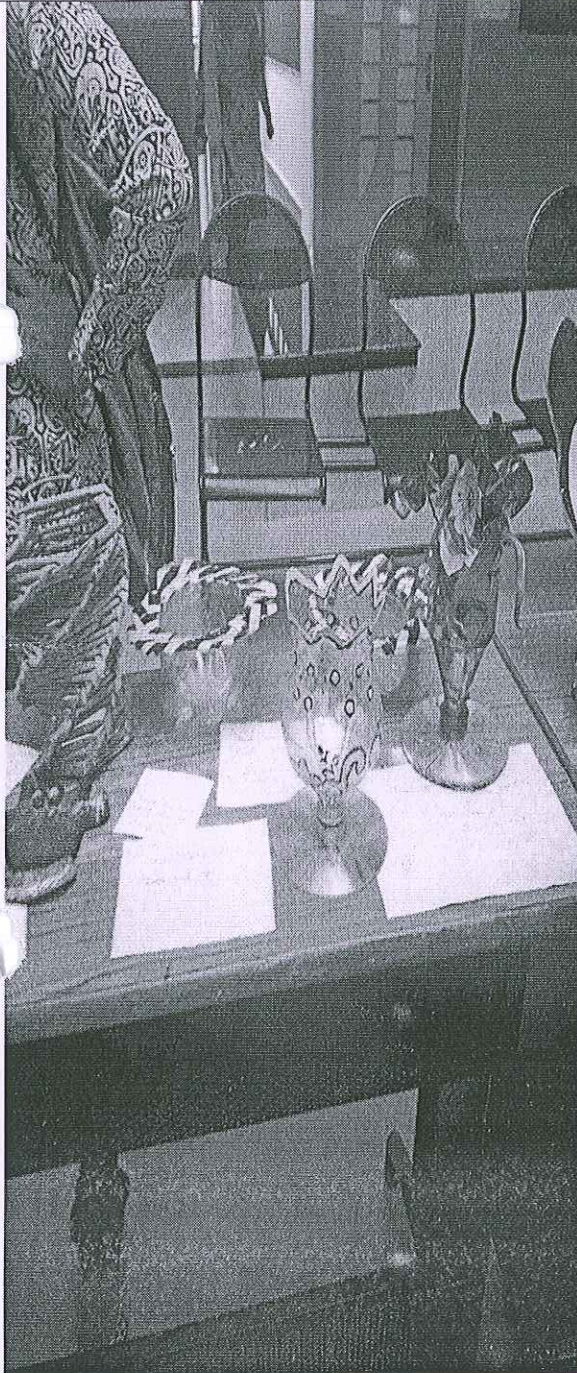

Date & Time of the Programme	24/ 4 /18 1:00 PM to 2:30 PM
Type of the Programme (co-curricular /extra-curricular/ cultural/sports/NSS/NCC/Industry-Institute Interactive/ Extension Activities/ Outreach/Capacity building/ others)	Co-Curricular; Awareness creation activity
Name of the Resource Person	Mrs.Shashikala .U Convener Eco club
Designation	Convener Eco club
Class	Students of BCom BBA BSc and BCA
Total No. of Students	250
Programme In charge	Mrs.Shashikala .U Convener Eco club
Collaboration :	-----
Objective :	<ul style="list-style-type: none">The objective was to create love for the Environment by making wealth out of waste with the help of recyclable things.To create awareness about the three R's of waste management i.e Reduce Reuse Recycle by organising an exhibition on products that can be generated from WasteTo observe the World Earth Day
Issues / Key factors addressed :	<ul style="list-style-type: none">Generating useful products from WasteReducing waste - waste in our day to day life were used in constructive manner and variety of things were made from themThe students used their imagination and creativity to make innovative things out of waste like broken bangles, plastic bottles, waste, beads, glasses, old CDs etc.
Impact/ Outcome :	<ul style="list-style-type: none">Strongly creating an Awareness that our Mother Earth can be protected only if we conserve our natural resourcesCreating awareness about reducing waste by following the three R's of waste managementActive participation of students was witnessed and the programme also instilled a sense of curiosity among the students

Sushikala

- The activity displayed creativity skills of the students and also developed a sense of love for environment.
- Imagination and creativity skills of the students were witnessed and the programme motivated them to reduce waste to save our planet Earth.
- The ability of the students to think and organize their thoughts to create such beautiful items from waste was witnessed through this programme

“WEALTH OUT OF WASTE ACTIVITY”

And Celebration of World Earth Day(22/4/18)-REPORT

ECO Club of Sindhi College organized an activity on “Wealth out of waste” on 24/4/18. The students from various streams of B.com, BBA, BCA and B.Sc displayed their innovative products generated from waste. The products ranged from flowerpots made from plastic bottles to bags made from old pillow covers and papers. Earrings bangles and chains were made from old papers, old metal wires, old silk thread, cloth etc.

Curios and mementoes of Gods and other interesting objects were made from paper, old metal wires and plastic bottles. Mineral water bottles were converted to fancy flowers. Old tiles were converted into fancy paintings. Wall hangings were made from old paper and old clothes, Files and folders were made from old dupattas. Creative charts also were displayed and the contents of the chart were made from old CD's, discarded chocolate wrappers etc. The students exhibited their creativity in generating wealth from waste and displayed all their creative products in the quadrangle of the College. The students were informed to sell their products for a price to motivate them and reward them for their creativity. There was a positive response from the students regarding the same. The exhibition was also organized to celebrate the World Earth day observed on 22/4/18 to create awareness about the three R'S of waste management (Reduce, Reuse and Recycle). Our mother Earth can only be protected if we conserve our natural resources and also reduce waste by following the three R'S of waste management. The students took an oath at the end of the session to reduce waste and protect our mother Earth. Active participation from students and staff made the exhibition more interesting and enticing. The outcome of the program was successful in giving a strong message to manage waste and protect our mother Earth

30/10/17

Eco club in association with the NSS unit of the College organised "Vanamahotsava"-A programme meant to distribute saplings to the entire students of the college.

Saplings of wild varieties were distributed by the Principal, Vice principal to the students in the main entrance of the College. The students participated enthusiastically and collected the saplings and pledged that they will plant the saplings in their house backyards.

The programme achieved the intended objective in the form of increased awareness among the students towards the importance of planting trees.

Various saplings were distributed and the programme proved to be successful in communicating the intended message about planting more trees for a better today and tomorrow.

KNOWLEDGE IS POWER

WORLD WATER DAY

Dear Citizens,

22 march 2017

The United Nations(UN) Conference on Environment and Development - 1992, recommended that a day be celebrated to bring water literacy amidst people, and called for celebration of World Water Day. Accordingly, the UN General Assembly declared 22nd March as World Water Day, and this was celebrated for the first time in the year 1993. The main objective of world water day is to create awareness and educate the common people about the proper use of water. This year's theme for world water day is "Why Wastewater?"

In our daily life, when we use water, a significant portion of it is wasted. Many a time, more water goes down the drain than being utilized. In this regard, each one of us can do something, and that is why this handbill is in your hands.

When you brush your teeth or shave your face, though not necessary, the tap will be on. In the real sense, you are not making use of water. Simply you are sending water down the drain. In the same manner, when vegetables are washed or vessels are washed more water is wasted than that is really used. If vegetable are rinsed for a while, and then washed, and the remaining water is used to water the plants, you can put the same water to multiple uses. When you draw rangoli, many people wash the entire your front yard with lots of water. There is no purpose served by wasting water like this. The same thing can be achieved with little amount of water. In the hot summer days also, there is no dearth of people who wash their bike or car with lots of water. The same thing could be done using a pressure wash. What is required is some concern and discretion when you want to use water.

It is not necessary to bathe the plant with water when you water the plants in your garden. Water for a plant is needed for the roots. A small quantity of water will do for this purpose. It would be ideal to water our garden during morning or evenings. During summer afternoon watering a plant, most of the water will get evaporated.

It is better to use a shower to bath. While loading a washing machine, let it be loaded to full capacity. This will save water. While using a toilet to flush, it is not necessary to empty the complete flush tank. The above said are some of the small changes which everyone can try and implement to save water. That apart, ensure leaking taps and water tanks are attended for repair immediately. Even if you have the luxury of a borewell in your house, underground water will not last forever. Incase, if you have space for rainwater harvesting, this is the best time, as you can test your rain water harvesting plant during the first rains itself.

It is the solemn duty of every citizen to use water judiciously at-least till this harsh summer comes to an end. KRVP calls upon every citizen to be sensible and sensitive the water difficulties in the city and request each one of you to demonstrate the much needed civic sense to conserve water for the benefit of all.

RAVINDRANATH SIRIVARA
PRESIDENT

Programme on ^{UN website} www.worldwaterday.org/wtd.events

The scientific seminar program is organised in association with Karnataka Rajya Vijnana Parishat, Sindhi College and The Akshaya Patra Foundation – The seminar series shall cover topics on Water -It's Importance, Human Health , Water & Waste Water – Akshaya Patra Foundation success story in conserving and treating large volume of water in daily operations.

Collaboration :	Sindhi College of Commerce In association with Akshaya Patra foundation and Karnataka Rajya Vignana Parishat
Objective :	<ul style="list-style-type: none"> To enable the students understand the importance of saving and using water wisely To create awareness about the scarcity of water and sustainable use of the same to make it available for our future generations The intention was to inspire people around the world to learn more about water-related issues and to take action to make a difference To encourage individuals and communities to reduce and safely recycle the increasing quantities of wastewater that we produce.
Issues / Key factors addressed :	<ul style="list-style-type: none"> Importance of water and the ways of saving water Wastewater treatment and its related methodologies and working The Importance of water for human health "No water, No life" was the point stressed upon by the resource persons

	<ul style="list-style-type: none"> The theme was "Why Waste Water?" which was about reducing and reusing waste water. The theme was relevant enough to both the aspects of not wasting water and issues around wastewater, namely treatment and reuse.
Impact/ Outcome :	<ul style="list-style-type: none"> The students effectively understood the importance of saving water. The programme was successful in creating awareness about using water wisely in order to ensure that water is also available for our future generations. The students and the audience gained insight about the importance of water for human health and also the water woes of the world; The relevance and seriousness of the issue was clearly communicated by the experienced and knowledgeable resource persons. Water is fundamentally important to human survival and inextricably linked with the health of the Environment and the Economy. This point was understood by the audience in an effective manner. The audience also understood that safely managed wastewater is an affordable and sustainable source of water, energy and nutrients.

Vignana Parishath in association with Sindhi
College of Commerce

A very informative and an useful program was conducted by Akshayapatra foundation and Karnataka Rajya Vignana Parishath in association with Sindhi College of Commerce on the occasion of world water day 2017 on 22/3/17. The program began by Professor Pallavi ,Principal,PU Sindhi college welcoming the guests and honoring them. This was followed by a speech from Prof.M.Nagraj, retired professor from Government College; he spoke about the importance of water and how to save water. He emphasized the importance of water saving and said that our future generations will not have a drop of water if water saving practices are not adopted. The second speaker was Mr.Balaji, Process engineer from Akshayapatra foundation, he spoke about waste water treatment and how it should be implemented .He also emphasized on the water woes of various districts of Karnataka and other places and stressed that recycling waste water would solve the water woes. The last speaker of the day was Dr.Prakash rao, former secretary, Karnataka medical association. He spoke about water borne diseases and the importance of saving and maintaining clean water .He spoke about the importance of water for human health, he stressed that water is an elixir for human health. Report on PPT Presentation by Students

4/11/16

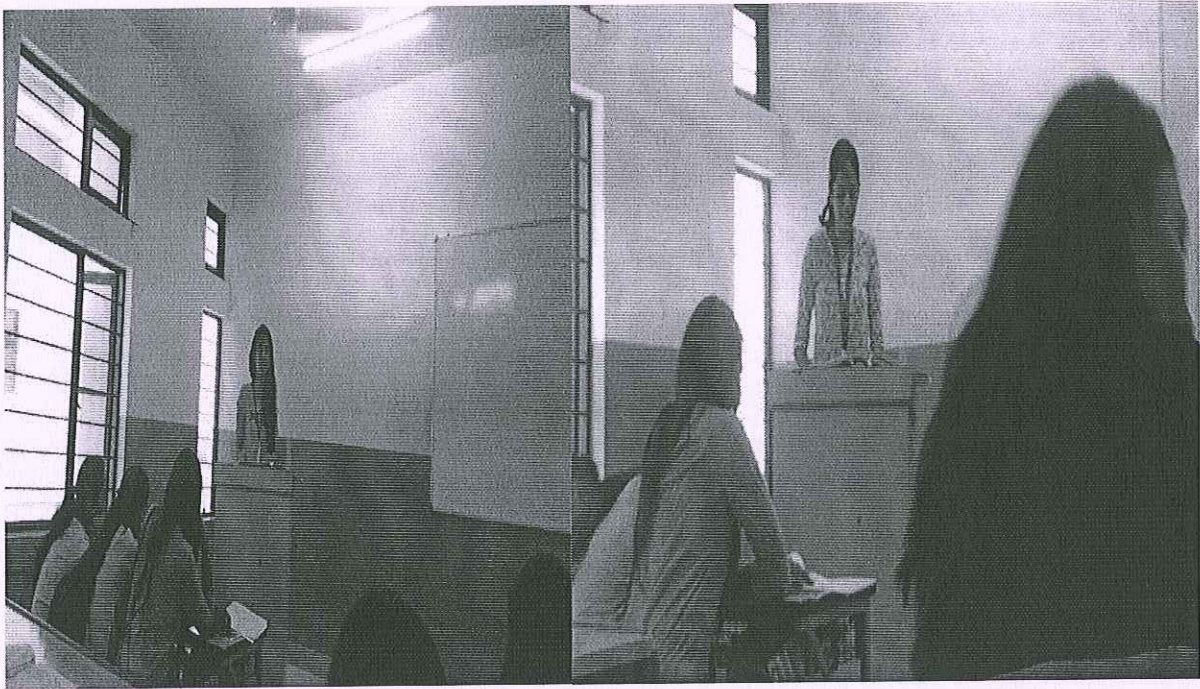

The students of II B.com, presented a PPT on "Types of Environmental pollution and its effects" on 4/11/16. They explained how pollution is harmful and dangerous to the future generations also. They concluded by saying that to have a sustainable environment the Government should plan better measures to tackle Environmental pollution. Discussions about Air pollution and its effects also took place. The session proved to be interesting and stressed on the importance of the modern generation taking commitment to reduce pollution. The students participated enthusiastically and shared their viewpoints on pollution.

ECO CLUB

REPORT ON RAIN WATER HARVESTING

The Eco Club of Sindhi College of commerce conducted a lecture on Rain water harvesting on the 31st of March, 2016. The lecture was delivered by Mr. A.R. Shivkumar who highlighted the plight of people suffering due to lack of water through videos and pictures. He also demonstrated how the concept of using rain water productively is not so widespread and why it is important for people to know about its advantages.

In his lecture he explained that rain water is the purest form of drinking water and it is not being used to its best. Currently all the rain water just flows and gets mixed with contaminants and becomes unfit for regular use. This condition can be improved by building minimum infrastructure to facilitate replenishment of underground water. He made us aware that optimal underground water levels avoid conditions like drought.

He described the different types of rain water harvesting and explained each one in detail. He made the session very educative and interactive. Students were bought into the concept and enthusiastically acknowledged the necessity and the benefits of rain water harvesting.

Our students were privileged to have listened to this lecture from Mr A R Shivkumar. He is a scientist at IISC Bangalore and the Principal Investigator for Rain water harvesting. His contribution in this area has been rightly recognised by the State and Central government and he has received prestigious awards from them. It was indeed a pleasure for us to have been a part of this lecture.

Prof. Jayashree Tambad

Convenor Eco Club
